An Act respecting the Town of Sarnia

WHEREAS the Municipal Corporation of the Town of Sarnia has by petition represented that this council duly passed a by-law to raise \$16,000, namely, \$12,000 to lay waterworks' mains and \$4,000 to construct a common sewer on Clifford Street from the east side of Christina street to the River St. Clair which by-law is No. 820, which was finally passed on the 3rd day of November, 1913; and whereas the said by-law before being finally passed was submitted on the 25th day of October, 1913, to the vote of the ratepayers, 1,099 ratepayers voting for the same and 41 against, no debentures having been issued under said by-law; and, whereas the validity of the said by-law is questioned by reason of the same having been finally passed within two weeks after it was voted on by the ratepayers, and the six weeks within which by-laws of that kind are required to be passed, under the provisions of *The Municipal Act*, having expired; and whereas though the assent of the Provincial Board of Health was, on the 10th day of December, 1913, given to the construction of the said sewer, it is contended that the consent should have been obtained before the by-law was submitted to the ratepayers, and a recital to that effect inserted in the by-law; and whereas the work for the construction of the said sewer has been let to the lowest bidder, and it has been ascertained that the same will cost \$3,350 more than the estimate therefor, and it will be necessary for the town to raise that sum in addition to the \$4,000 provided to be raised under said by-law therefor, and the town deems it desirable to be authorized by this Act to pass a by-law to raise the extra amount of \$3,350 for the additional cost of the construction of the said sewer by the issue of debentures without having to submit the same to the ratepayers for their assent; and whereas the said corporation has prayed that an Act may be passed confirming the said by-law and authorizing the council of the said town to pass a by-law to raise the additional \$3,350 required as aforesaid.

without submitting the same to the ratepayers for their assent, and it is expedient to grant the prayer of the said petition;

Therefore, His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

By-law 820 confirmed.

1. By-law Number 820 of the Municipal Corporation of the Town of Sarnia set out in Schedule "A." hereto and all debentures issued or to be issued thereunder, and all rates and assessments made or to be made for the payment thereof are hereby validated and confirmed and are declared legal, valid and binding upon the said municipal corporation, and the ratepayers thereof.

Authority to borrow \$3,350 for extras re Clifford St. sewer.

2.—(1) The Municipal Council of the Corporation of the Town of Sarnia is hereby authorized and empowered to pass a by-law for the issue of debentures to raise the sum of \$3,350, being the additional cost of the construction of the said Clifford street sewer from the east side of Christina street to the River St. Clair, without first obtaining the assent of the ratepayers thereto, and without observing any of the formalities in relation thereto, prescribed by *The Municipal Act, 1913*, or any amendments thereto or consolidation thereof.

Irregularity in form not to invalidate.

(2) No irregularity in the form of the said debentures or of any by-law authorizing the issue thereof shall render the same invalid or illegal or be allowed as a defence to any action brought against the corporation for the recovery of the amount of the said debentures or interest, or any or either of them or any part thereof.

Purchaser not put on inquiry.

(3) The purchaser or holder of the said debentures shall not be bound as to the necessity for the passing of any such by-law, or of the issue of such debentures or as to the application of the proceeds thereof.

Confirmation of by-law and debentures.

3. The said corporation may issue and sell the said debentures and any by-law providing for the issue of said debentures when passed, and any debentures to be issued thereunder, when passed shall be legal, valid and binding.

SCHEDULE "A."

BY-LAW No. 820.

A By-law to raise \$12,000.00 to pay for the laying of certain waterworks' mains in the Town of Sarnia, and \$4,000.00 for the construction of a common sewer in said town, in all \$16,000.00.

Whereas it has become desirable to lay down a system of waterworks' mains in the Town of Sarnia, on Milton Street, from George Street to Campbell Street, and from thence to the Grand Trunk Railway Station, and also on Christina Street, from Confederation Street to Clifford Street, and also to construct a common sewer, twenty-four inches in diameter upon Clifford Street, from the east side of Christina Street to the River St. Clair.

And whereas the Municipal Council of the said Town has procured an estimate of the cost of laying down of the first mentioned waterworks' mains at \$7,500.00; and also of the cost of laying down the second mentioned waterworks' mains at \$4,500.00; and also of the cost of constructing said sewer at \$4,000.00; in all \$16,000.

And whereas for the payment of the said works, the said Council requires to raise the said sum of \$16,000.00 and intend by this By-law to create a debt on the Corporation of the Town of Sarnia of \$16,000.00, with interest at the rate of five per cent. per annum to be computed from the first day of January next, payable in twenty equal annual instalments, by the issue of debentures to the extent of \$16,000.00, with coupons attached for the payment of interest.

BILL

Act to Confirm certain By-laws of the Town of Orillia.

WHEREAS the Municipal Corporation of the Town of Orillia has by petition represented that it has passed Local Improvement By-laws Numbers 579 and 580, fully set out as Schedules "A" and "B" hereto respectively, and has constructed the works provided for in such by-laws; and whereas doubts have arisen as to the validity of the said by-laws, on account of the work in each of the said by-laws embodying a number of streets, and on account of the said by-laws failing to recite the consent and approval of the Provincial Board of Health, and on account of the debentures issued in By-law Number 579, being for a term of twenty-seven years, and it is desirable that the said by-laws and the debentures issued or to be issued under them should be confirmed; and whereas the said corporation has prayed that an Act may be passed for such purposes; and whereas it is expedient to grant the prayer of the said petition;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. By-laws Numbered 579 and 580 of the Municipal Corporation of the Town of Orillia, specified in Schedules "A" and "B" respectively hereto, and all debentures issued or to be issued thereunder, and all assessments made or to be made, and all rates levied or to be levied for the payment thereof are validated and confirmed, and the said corporation is declared to have had power to pass and issue and levy the same.

SCHEDULE "A."

BY-LAW No. 579.

By-law to provide for borrowing twenty-two thousand four hundred dollars upon debentures to pay for the construction of a sewer upon the following streets in the Town of Orillia, namely:—On Front Street, from King Street to Mississaga Street; on Front Street, from Mississaga Street to Coldwater Street; on Mississaga Street, from Front Street to West Street; on Mississaga Street, from West Street to Andrew Street; on King Street, from Front Street to West Street; on Matchedash Street, from King Street to Coldwater Street; on Peter Street, from King Street to Coldwater Street; on Elgin Street, from Matchedash Street to West Street; on West Street, from Elgin Street to Coldwater Street; on Colborne Street, from Front Street to West Street; on Coldwater Street, from Front Street to West Street;

Whereas pursuant to construction by-law No. 499, passed on the 4th day of April, 1910, a sewer has been constructed upon the streets and on such portions of the said streets as are hereinbefore set out as a local improvement under the provisions of the local improvement sections of *The Municipal Act*;

And whereas the total cost of the said work was \$64,352.95, of which \$35,379.48 is the corporation's portion of the cost and \$28,973.47 is the owners' portion of the cost, for which a special assessment roll has been duly made and certified;

And whereas the sum of \$6,578.09 of the owners' portion of the cost of the said work has already been paid in;

BILL

An Act to confirm By-law No. 387 of the County of Halton.

WHEREAS the Council of the Corporation of the County of Halton have by their petition represented that on the 3rd day of March, 1914, they passed their By-law Number 387, providing for borrowing on the credit of the said county the sum of \$20,000 upon debentures for the purpose of providing funds to complete the construction of the high level bridge over Sixteen-Mile Creek near the Town of Oakville and the paper mills bridge and dam near the Village of Georgetown; that the notice of the day appointed for the meeting of the said council specially called for the purpose of considering the said by-law was first published on the 29th day of January, 1914, and the meeting was called for and held on the 3rd day of March, 1914, within six weeks of the said first publication, and the said by-law was passed at such meeting; that save and except the sum of \$20,000, the said county council has not borrowed any sum or sums over and above what is required for its ordinary expenditure; that doubts have arisen respecting the validity of the said by-law and of the rates thereby imposed and the petitioners are unable to sell the debentures issued thereunder; that no objection to the validity of the said by-law has been made by any ratepayer of the said county and it is just and equitable that the said by-law and the debentures issued or to be issued thereunder should be legalized and confirmed; and whereas it is expedient to grant the prayer of the said petition; Preamble.

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. By-law Number 387 passed by the Municipal Council of the Corporation of the County of Halton on the third day of March, 1914, set out in Schedule "A" hereto and the rates thereby imposed and to be levied thereunder are hereby confirmed and declared to be legal, valid and binding upon the By-law 387 confirmed.

Corporation of the County of Halton and the ratepayers thereof.

Confirmation
of debentures.

2. All debentures issued or to be issued under the authority of the said by-law and substantially complying with the provisions thereof shall be legal, valid and binding upon the said corporation and the ratepayers thereof and upon all parties concerned.

BY-LAW No. 387.

A by-law to authorize the issue of debentures of the County of Halton to the amount of \$20,000.00 for the purpose of providing funds to complete the high level bridge over the Sixteen Mile Creek, near the Town of Oakville, and the paper mills bridge and dam near the Village of Georgetown.

Whereas the County of Halton has constructed a high level bridge over the Sixteen Mile Creek where the allowance for road between the third and fourth concessions (south of Dundas Street) in the Township of Trafalgar, in the County of Halton, crosses same;

And whereas the County of Halton has also entered into contracts for the erection and completion of a bridge and dam near the Village of Glenwilliams, in the Township of Esquesing, in the County of Halton, on the River Credit, known as the "Paper Mills Bridge and Dam," and in addition to the monies already expended on said undertakings, a further sum of \$20,000.00 will be required to pay for work already done and to complete same respectively;

And whereas the County of Halton has already expended sums of money on the work and contracts hereinbefore mentioned and the sum of \$20,000.00 will be required to complete the same, and over and above the ordinary expenditure of the county;

And whereas in order thereto it will be necessary to issue debentures of the County of Halton for the sum of \$20,000 as hereinafter provided (which is the amount of the debt intended to be created by this by-law) the proceeds of the said debentures to be applied to the said purpose and no other;

And whereas it is desirable that the said debt shall be payable in fifteen annual instalments of such amounts that the aggregate amount payable each year for principal and interest in respect of this said debt shall be as nearly as possible equal to the amount so payable in each of the other years of the said period;

And whereas the total amount required by the Municipal Act to be raised annually during the terms of fifteen years by special rate for paying the said debt and interest is \$1,926.85 to be applied in payment of the principal and interest of the said debentures maturing in each year;

And whereas the amount of the whole rateable property of the County of Halton according to the last revised and equalized assessment roll thereof is \$13,082,037.74;

And whereas the total existing debt of the County of Halton for debentures or otherwise at this date is the sum of \$307,306.86, no part of which is in arrears;

Therefore the Municipal Council of the Corporation of the County of Halton enacts as follows:

1. The sum of \$20,000.00 shall be expended in payment for the erection and completion of the "High Level Bridge" near Oakville, and the "Paper Mills Bridge and Dam" near the Village of Glenwilliams, hereinbefore referred to, and in payment of work already done in respect of the bridges and erections aforesaid, and for the purpose of raising the said sum, debentures of the County of Halton to the amount of \$20,000.00 as aforesaid shall be issued.

2. Each of the debentures shall be signed by the Warden of the said County of Halton, and also by the Treasurer thereof, and the Clerk of the said County of Halton shall attach thereto the corporate seal of the municipality, and the debentures shall be issued within two years from the passing of this by-law and shall bear date the day of the issue.

3. The said debentures shall bear interest at the rate of five per cent. per annum, payable yearly, and shall have attached to them coupons for the payment of interest which coupons shall be signed by the Treasurer of the County of Halton aforesaid and shall be made payable on the same days as the debentures in each and every year thereafter during the currency of the debentures. The signatures to the coupons may be written, stamped, lithographed or engraved.

4. The principal of the debt shall be payable in fifteen annual instalments during the fifteen years from the time of their issue of such amounts that with the interest in respect of the debt payable annually the aggregate amount payable for principal and interest in each year shall be as nearly as possible the same. The debentures, both as to principal and interest, shall be payable at the office of the Metropolitan Bank in the Town of Milton.

5. During the currency of the said debentures there shall be raised annually by special rate on all rateable property in the County of Halton a sum sufficient to discharge the several instalments of principal and interest accruing due on the said debt as the same become respectively payable.

(2) Except as provided by subsection 1 no compensation shall be payable under this Part where the accident to the workman happens out of Ontario unless it happens on a steamboat, ship or vessel, or on a railway, and the nature of the employment is such that in the course of the work or service which the workman performs it is required to be performed both within and without Ontario.

7.—(1) Where by the law of the country or place in which the accident happens the workman or his dependants are entitled to compensation in respect of it they shall be bound to elect whether they will claim compensation under the law of such country or place or under this Part and to give notice of such election, and if such election is not made and notice given it shall be presumed that they have elected not to claim compensation under this Part.

(2) Where compensation is claimed from the principal in this Part reference to the principal shall be substituted for reference to the employer, except that the amount of the compensation shall be calculated with reference to the earnings of the workman under the employer by whom he is immediately employed.

(3) Where the principal is liable to pay compensation under this section he shall be entitled to be indemnified by any person who would have been liable to pay compensation to the workman independently of this section and all questions as to the right to and the amount of any such indemnity shall be determined by the Board.

(4) Nothing in this section shall prevent a workman claiming compensation under this Part from the contractor instead of the principal.

(5) This section shall not apply where the accident happens elsewhere than on or in or about premises on which the principal has undertaken to execute the work or which are otherwise under his control or management.

11. Where compensation is payable out of the accident fund, a member of the family of an employer shall not be entitled to compensation unless he was at the time of the accident carried on the pay roll of the employer and his wages were included in the then last statement furnished to the Board under section 78 nor for the purpose of determining the compensation shall his earnings be taken to be more than the amount of his wages, as shown by such pay roll and statement.

12. Where compensation is payable out of the accident fund an employer who is carried on his pay-roll at a salary or wages which the Board deems reasonable but not exceeding the rate of \$2,000 per annum, shall if such salary or wages were included in the then last statement furnished to the Board under section 78, be deemed to be a workman within the meaning of this Act and shall be entitled to compensation accordingly, but for the purpose of determining the compensation his earnings shall not be taken to be more than the amount of his salary or wages as shown by such pay roll and statement.

13. No action shall lie for the recovery of the compensation whether it is payable by the employer individually or out of the accident fund, but all claims for compensation shall be heard and determined by the Board.

14. If a workman receiving a weekly or other periodical payment ceases to reside in Ontario he shall not thereafter be entitled to receive any such payment unless a medical referee certifies that the disability resulting from the injury is likely to be of a permanent nature and if a medical referee so certifies and the Board so directs the workman shall be entitled quarterly to the amount of the weekly or other periodical payments accruing due if he proves in such manner as may be prescribed by the Regulations his identity and the continuance of the disability in respect of which the same is payable.

15. The right to compensation provided for by this Part shall be in lieu of all rights and rights of action, statutory

all actions and rights of action against employer.

or otherwise, to which a workman or his dependants are or may be entitled against the employer of such workman for or by reason of any accident which happens to him while in the employment of such employer, and after the day named by proclamation as mentioned in section 3, and no action in respect thereof shall thereafter lie.

Right to compensation may not be waived.

16. It shall not be competent for a workman to agree with his employer to waive or to forego any of the benefits to which he or his dependants are or may become entitled under this Part and every agreement to that end shall be absolutely void.

Agreement as to compensation not valid unless approved by the Board.

17.—(1) Where the compensation is payable by an employer individually no agreement between a workman or dependant and the employer for fixing the amount of the compensation or by which the workman or dependant accepts or agrees to accept a stipulated sum in lieu or in satisfaction of it shall be binding on the workman or dependant unless it is approved by the Board.

Exception.

(2) Subsection 1 shall not apply to compensation for temporary disability lasting for less than four weeks, but in such cases the Board may, on the application of the workman or dependant, set aside the agreement on such terms as may be deemed just.

(3) Nothing in this section shall be deemed to authorize the making of any such agreement except with respect to an accident that has happened and the compensation to which the workman or dependant has become entitled because of it.

Deduction not to be made from wages.

18.—(1) It shall not be lawful for an employer, either directly or indirectly, to deduct from the wages of any of his workmen any part of any sum which the employer is or may become liable to pay to the workman as compensation under this Part or to require or to permit any of his workmen to contribute in any manner towards indemnifying the employer against any liability which he has incurred or may incur under this Part.

Penalty.

(2) Every person who contravenes any of the provisions of subsection 1 shall for every such contravention incur a penalty not exceeding \$50 and shall also be liable to repay to the workman any sum which has been so deducted from his wages or which he has been required or permitted to pay in contravention of subsection 1.

Compensation not assignable or liable to attachment.

19. Unless with the approval of the Board no sum payable as compensation or by way of commutation of any

weekly or other periodical payment in respect of it shall be capable of being assigned, charged or attached, nor shall it pass by operation of law except to a personal representative nor shall any claim be set off against it.

20.—(1) Subject to subsection 5 compensation shall not be payable unless notice of the accident is given as soon as practicable after the happening of it and before the workman has voluntarily left the employment in which he was injured and unless the claim for compensation is made within six months from the happening of the accident or in case of death within six months from the time of death. Notice of accident to be given.

(2) The notice shall give the name and address of the workman and shall be sufficient if it states in ordinary language the cause of the injury and where the accident happened. Nature of notice.

(3) The notice may be served by delivering it at or sending it by registered post addressed to the place of business or the residence of the employer, or where the employer is a body of persons, corporate or unincorporate, by delivering it at or sending it by registered post addressed to the employer at the office or if there are more offices than one at any of the offices of such body of persons. Service of notice.

(4) Where the compensation is payable out of the accident fund the notice shall also be given to the Board by delivering it to or at the office of the Secretary or by sending it to him by registered post addressed to his office. Notice to Board.

(5) Failure to give the prescribed notice or any defect or inaccuracy in a notice shall not bar the right to compensation if in the opinion of the Board the employer was not prejudiced thereby or where the compensation is payable out of the accident fund if the Board is of opinion that the claim for compensation is a just one and ought to be allowed. Failure to give, or defect in notice not to affect right to compensation in certain cases.

21.—(1) A workman who claims compensation, or to whom compensation is payable under this Part shall if so required by his employer submit himself for examination by a duly qualified medical practitioner provided and paid for by the employer and shall if so required by the Board submit himself for examination by a medical referee. Certificate of medical referee final.

(2) The medical referee to whom a reference is made under the next preceding subsection or who has examined the workman by the direction of the Board under subsection 1 of section 21, shall certify to the Board as to the condition of the workman and his fitness for employment, specifying where necessary the kind of employment and his certificate unless the Board otherwise directs shall be conclusive as to the matters certified.

Failure to submit to examination or obstructing it.

(3) If a workman does not submit himself for examination when required to do so as provided by subsection 1 of section 21, or on being required to do so does not submit himself for examination to a medical referee under that subsection or under subsection 1 of this section, or in any way obstructs any examination, his right to compensation or if he is in receipt of a weekly or other periodical payment his right to it shall be suspended until such examination has taken place.

Review of compensation.

23. Any weekly or other periodical payment to a workman may be reviewed at the request of the employer or of the workman, if the compensation is payable by the employer individually, or, if the compensation is payable out of the accident fund, of the Board's own motion or at the request of the workman and on such review the Board may put an end to or diminish or may increase such payment to a sum not beyond the maximum hereinafter prescribed.

Increase of compensation to workman under 21.

24. Where the workman was at the date of the accident under twenty-one years of age and the review takes place more than six months after the accident the amount of a weekly payment may be increased to the sum to which he would have been entitled if his average earnings had at the date of the accident been equal to what if he had not been injured he would probably have been earning at the date of the review.

Commutation of payments for lump sum.

25.—(1) Where the compensation is payable by an employer individually, the employer may, with the consent of

the workman or dependant to whom it is payable and with the approval of the Board, but not otherwise, and where it is payable out of the accident fund the Board may commute the weekly or other periodical payments payable to a workman or a dependant for a lump sum.

(c) invested by the Board and applied from time to time as the Board may deem most for the advantage of the workman or dependant;

(d) paid to trustees to be used and employed upon and subject to such trusts and for the benefit of such persons as, in case it is payable by the employer individually, the workman or dependant directs and the Board approves, or, if payable out of the accident fund, as may be desired by the workman or dependant and approved by the Board;

(e) applied partly in one and partly in another or others of the modes mentioned in clauses (a), (b), (c) and (d),

as the Board may determine.

26.—(1) Where a weekly or other periodical payment is payable by the employer individually and has been continued for not less than six months, the Board may on the application of the employer allow the liability therefor, to be commuted by the payment of a lump sum of such an amount as, if the disability is permanent, would purchase an immediate annuity from a life insurance company approved by the Board, equal to seventy-five per cent. of the annual value of the weekly or other periodical payments, and in other cases of such an amount as the Board may deem reasonable. Commutation of weekly payments.

(2) The sum for which a payment is commuted under subsection 1, shall be paid to the Board and shall be dealt with in the manner provided by section 25. Application of lump sum.

(2) This section shall not apply to a contract of insurance entered into before the passing of this Act.

The Board may require an employer who is individually liable to pay the compensation to pay to the Board a sum sufficient to commute in accordance with section 26, any weekly or other periodical payments which are payable to the workman during his life or to his widow during her widowhood and such sum shall be applied by the Board in the payment of such weekly or other periodical payments as they from time to time become payable, but if the sum paid to the Board is insufficient to meet the whole of such weekly or other periodical payments the employer shall nevertheless be liable to make such of them as fall due after the sum paid to the Board is exhausted, and if the sum paid is more than sufficient for that purpose the excess shall be returned to the employer when the right to compensation comes to an end.

Board may require employer to insure his workmen.

29. The Board may require an employer who is individually liable to pay the compensation to insure his workmen and keep them insured against accidents in respect of which he may become liable to pay compensation in a company approved by the Board for such amount as the Board may direct and in default of his doing so the Board may cause them to be so insured and may recover the expense incurred in so doing from the employer.

Where employer insured Board may require insurer to pay amount payable to employer directly to injured workman.

30.—(1) Where an employer who is individually liable to pay the compensation is insured against his liability to pay compensation, the Board may require the insurance company or other underwriter to pay the sum which under the contract of insurance such company or underwriter would be liable to pay to the employer in respect of an accident to a workman who becomes, or whose dependants become entitled to compensation under this Part, directly to the Board

in discharge or in discharge *pro tanto* of the compensation to which such workman or his dependants are found to be entitled.

(2) In any case to which subsection 1 applies where a claim for compensation is made notice of the claim shall be given to the insurance company or other underwriter and to the employer and the Board shall determine not only the question of the right of the workman or dependant to compensation but also the question whether the whole or any part of it should be paid directly by the insurance company or other underwriter as provided by subsection 1.

Notice to be given to insurer.

(3) Section 25 shall apply to the compensation payable to the Board under subsection 1.

Sect. 25 to apply.

31.—(1) Where the accident causes permanent disability, either total or partial or the death of the workman and the compensation is payable by the employer individually the Board may require the employer to pay to the Board such sum as in its opinion will be sufficient with the interest thereon if invested so as to earn interest at the rate of 5 per cent. per annum to meet the future payments to be made to the workman or his dependants, and such sum when paid to the Board shall be invested by it and shall form a fund to meet such future payments.

In case of permanent disability employer may be required to pay capital sum.

(2) The Board, instead of requiring the employer to make the payment provided for by subsection 1, may require him to give such security as the Board may deem sufficient for the future payments.

or to give security for payment of compensation

32. Where a right to compensation is suspended under the provisions of this Part no compensation shall be payable in respect of the period of suspension.

Compensation not payable during suspension.

Duration of payments under clause (f) of subsection 1.

(2) In the case provided for by clause (f) of subsection 1, the payments shall continue only so long as in the opinion of the Board it might reasonably have been expected had the workman lived he would have continued to contribute to the support of the dependants.

(3) Where there are both total and partial dependants the compensation may be allotted partly to the total and partly to the partial dependants.

Board may apply payment for benefit of children

(4) Where the Board is of opinion that for any reason it is necessary or desirable that a payment in respect of a child should not be made directly to its parent, the Board may direct that the payment be made to such person or be applied in such manner as the Board may deem most for the advantage of the child.

Compensation not to exceed percentage of wages in certain cases

(5) The compensation payable as provided by subsection 1, shall not in any case exceed 55 per cent. of the average monthly earnings of the workman mentioned in section 37, and if the compensation payable under that subsection would in any case exceed that percentage it shall be reduced accordingly, and where several persons are entitled to monthly payments the payments shall be reduced proportionately.

ASSESSMENTS.

Provisional assessment. **84.**—(1) The Board shall not later than three months before the day named by proclamation as mentioned in sec-

tion 3 make a provisional assessment on the employers in each class of such sum as in the opinion of the Board will be sufficient to meet the claims for compensation which will be payable by that class for the first year after the day so named and to meet the expenses of the Board in the administration of this part for the year, and also to provide a reserve fund to pay the compensation payable in future years in respect of claims in that class for accidents happening in that year, of such an amount as the Board may deem necessary to prevent the employers in future years from being unduly or unfairly burdened with payments which are to be made in those years in respect of accidents which have previously happened.

(2) The sums to be so assessed may be either a percentage of the pay-rolls of the employers or a specific sum as the Board may determine. How assessment may be based.

(3) The amount raised by such provisional assessment shall be retained by the Board as a special reserve to provide for paying the compensation which becomes payable in future years for which assessments are to be made after the close of the year, and whenever the amount of such special reserve is not equal to the amount of the estimated expenditure of the Board for the current year the Board shall make a special assessment on all the employers in each class sufficient to bring the amount of the special reserve up to such estimated amount, and whenever the amount of the special reserve is greater than such estimated amount the Board shall deduct the excess from the amount for which the next annual assessment is to be made. Provisional assessment to form special reserve.

85.—(1) The Board shall in every year thereafter assess and levy upon the employers in each of the classes a sum sufficient to pay the compensation which was paid in the next preceding calendar year in respect of injuries to workmen in the industries within the class, and to provide and pay the expenses of the Board in the administration of this Part for that year and also to provide a similar reserve fund to that mentioned in subsection 1 of section 84, and such assessments may be based upon the payrolls of the employers. (2) Where the assessment is based on the payroll of the employer and there is included in it the wages or salary of a workman who has been paid more than at the rate of \$2,000 per annum the excess shall be deducted from the amount of the payroll and the assessment shall be based on the amount of it as so reduced.

(3) It shall not be necessary that the assessment upon the employers in a class or sub-class shall be uniform, but they

may be fixed or graded in relation to the hazard of each or of any of the industries included in the class or sub-class.

Proportion of assessment payable by employer to be fixed.

86.—(1) The Board shall determine and fix the proportion or part of the sum for which a class is so assessed under the provisions of either of the next preceding two sections which is to be paid by the employers within the class or within any sub-class and every employer shall pay to the Board the sum payable by him within 15 days after notice of the assessment and of the amount so payable has been given to him.

Notice of assessment.

How notice may be served.

(2) The notice may be sent by registered post to the employer and shall be deemed to have been given to him on the day on which the notice was posted.

Insufficient assessment to be made up by supplementary assessments.

87. If the amount intended to be provided for by the assessment in any year is by reason of the failure of an employer to pay his proportion of it or from any other cause insufficient for the purpose for which it was made, the Board may make supplementary assessments to make up the deficiency and section 86. shall apply to such assessments but the Board may defer assessing for such deficiency until the next annual assessment is made and then include it in such assessment.

All classes may be assessed for deficiency in any of them

88. Where the payments made by the employers in any class are insufficient to meet the amount of any assessment upon the employers embraced in it the deficiency shall be made up by supplementary assessments upon the employers in all the classes and the provisions of section 86 shall apply to such assessments but the Board may defer assessing for such deficiency until the next annual assessment is made and then include it in such assessment.

Where deficiency made good by employer, mode of application of payment.

89.—(1) If and so far as any deficiency mentioned in the next preceding two sections is afterwards made good wholly or partly by the defaulting employer the amount which shall have been made good shall be apportioned between the other employers in the proportions in which the deficiency was made up by them by the payment of supplementary assessments upon them and shall be credited to them in making the next assessment.

Employer not assessed liable to pay amount for which he should have been assessed.

(2) If for any reason an employer liable to assessment is not assessed in any year he shall nevertheless be liable to pay to the Board the amount for which he should have been assessed, and payment of that amount may be enforced in the same manner as the payment of an assessment may be enforced.

(3) Any sum collected from an employer under subsection 2 shall be taken into account by the Board in making an assessment in a subsequent year on the employers in the class or sub-class to which such employer belonged.

Amount collected to be taken into account in making subsequent assessment.

90. Notwithstanding that the deficiency arising from a default in the payment of the whole or part of any assessment has been made up by a special assessment a defaulting employer shall continue liable to pay to the Board the amount of every assessment made upon him or so much of it as remains unpaid.

Employer liable to pay unpaid sums.

91. Whenever the Lieutenant-Governor in Council is of opinion that the condition of the accident fund is such that with the reserves, exclusive of the special reserve, it is not sufficient to meet all the payments to be made in respect of compensation as they become payable and so as not unduly or unfairly to burden the employers in any class in future years with payments which are to be made in those years in respect of accidents which have happened in previous years, he may require the Board to make a supplementary assessment of such sum as in his opinion is necessary to be added to the fund, and when such a requirement is made the Board shall forthwith make such supplementary assessment and it shall be made in like manner as is hereinbefore provided as to other special assessments and all the provisions of this Part as to special assessments shall apply to it.

Lieutenant-Governor-in-Council may require supplementary assessments to be made.

92. In order to maintain the accident fund as provided by section 71 the Board may from time to time and as often as may be deemed necessary include in any sum to be assessed upon the employers and may collect from them such sums as may be deemed necessary for that purpose and the sums so collected shall form a reserve fund and shall be invested in securities in which a trustee may by law invest trust moneys.

Formation of reserves

93. 95.—(1) If an assessment or a special assessment or any part of it remains unpaid for 30 days after it has become payable, the Board, in lieu of or in addition to proceeding as provided by the next preceding section, may issue its certificate stating the name and residence of the defaulting employer, the amount unpaid on the assessment, the establishment in respect of which it is payable, and upon the delivery of the certificate to the clerk of the municipality in which the establishment is situate he shall cause the amount so remaining unpaid as stated in the certificate to be entered upon the collector's roll as if it were taxes due by the defaulting employer in respect of such establishment, and it shall be collected in like manner as taxes are levied and collected and the amount when collected shall be paid over by the collector to the Board.

Collector entitled to percentage.

(2) The collector shall be entitled to add five per cent. thereof to the amount to be collected and to retain such percentage for his services in making the collection.

In case of permanent disability employer may be required to pay capital sum.

ASSESSMENTS.

84.—(1) The Board shall before the day named by proclamation as mentioned in section 3 make a provisional assessment on the employers in each class of such sum as in the opinion of the Board will be sufficient to meet the claims for compensation which will be payable by that class for the first year after the day so named and to meet the expenses of the Board in the administration of this part for the year, and also to provide a reserve fund to pay the compensation payable in future years in respect of claims in that class for accidents happening in that year, of such an amount as the Board may deem necessary to prevent the employers in future years from being unduly or unfairly burdened with payments which are to be made in those years in respect of accidents which have previously happened. Provisional assessment to form special reserve.

Subsequent assessments.

85.—(1) The Board shall in every year thereafter assess and levy upon the employers in each of the classes a sum sufficient to pay the compensation which was paid in the next preceding calendar year in respect of injuries to workmen in the industries within the class, and to provide and pay the expenses of the Board in the administration of this Part for that year and also to provide a similar reserve fund to that mentioned in subsection 1 of section 84, and such assessments may be based upon the payrolls of the employers.

(2) Where the assessment is based on the payroll of the employer and there is included in it the wages or salary of a workman who has been paid more than at the rate of \$2,000 per annum the excess shall be deducted from the amount of the payroll and the assessment shall be based on the amount of it as so reduced.

(3) It shall not be necessary that the assessment upon the employers in a class or sub-class shall be uniform, but they may be fixed or graded in relation to the hazard of each or of any of the industries included in the class or sub-class.

All classes may be assessed for deficiency in any of them.

88. Where the payments made by the employers in any class are insufficient to meet the amount of any assessment upon the employers embraced in it the deficiency shall be made up by supplementary assessments upon the employers in all the classes and the provisions of section 86 shall apply to such assessments but the Board may defer assessing for

such deficiency until the next annual assessment is made and then include it in such assessment.

89.—(1) If and so far as any deficiency mentioned in the next preceding two sections is afterwards made good wholly or partly by the defaulting employer the amount which shall have been made good shall be apportioned between the other employers in the proportions in which the deficiency was made up by them by the payment of supplementary assessments upon them and shall be credited to them in making the next assessment.

Where deficiency made good by employer, mode of application of payment.

(2) If for any reason an employer liable to assessment is not assessed in any year he shall nevertheless be liable to pay to the Board the amount for which he should have been assessed, and payment of that amount may be enforced in the same manner as the payment of an assessment may be enforced.

Employer liable to pay unpaid sums.

91. Whenever the Lieutenant-Governor in Council is of opinion that the condition of the accident fund is such that with the reserves, exclusive of the special reserve, it is not sufficient to meet all the payments to be made in respect of compensation as they become payable and so as not unduly or unfairly to burden the employers in any class in future years with payments which are to be made in those years in respect of accidents which have happened in previous years, he may require the Board to make a supplementary assessment of such sum as in his opinion is necessary to be added to the fund, and when such a requirement is made the Board shall forthwith make such supplementary assessment and it shall be made in like manner as is hereinbefore provided as to other special assessments and all the provisions of this Part as to special assessments shall apply to it.

Lieutenant-Governor-in-Council may require supplementary assessments to be made.

95.—(1) If an assessment or a special assessment or any part of it remains unpaid for 30 days after it has become payable, the Board, in lieu of or in addition to proceeding as provided by the next preceding section, may issue its certificate stating the name and residence of the defaulting employer, the amount unpaid on the assessment, the establishment in respect of which it is payable, and upon the delivery of the certificate to the clerk of the municipality in which the establishment is situate he shall cause the amount so remaining unpaid as stated in the certificate to be entered upon the collector's roll as if it were taxes due by the defaulting employer in respect of such establishment, and it shall be collected in like manner as taxes are levied and collected and the amount when collected shall be paid over by the collector to the Board.

Collector entitled to percentage.

(2) The collector shall be entitled to add five per cent. thereof to the amount to be collected and to retain such percentage for his services in making the collection.

SCHEDULE "B."

BY-LAW No. 1084.

Passed the first day of August, 1913.

A by-law to amend By-law No. 1058 of the Town of Trenton.

Whereas by agreement dated the 28th day of November, A.D. 1912, the Municipal Corporation of the Town of Trenton agreed as a bonus to grant Montgomery and Company, Limited, a fixed assessment for ten years from the first day of January, 1914, on their plant and premises to be erected in the Town of Trenton and to furnish land for a factory site, as set out in said agreement;

And whereas in order to purchase the lands so required for said factory site it was necessary to raise the sum of \$4,000 and to issue debentures of the said town for the said sum of \$4,000;

And whereas a by-law to that end, intituled: "A by-law to authorize the mayor and clerk to execute a certain agreement or contract between the Municipal Corporation of the Town of Trenton and Montgomery & Company, Limited, and accepting, approving and ratifying the same, and authorizing the municipal council to purchase and convey the lands and premises required under said agreement and described therein for the purpose therein stated and to provide for the issue of debentures of the said Town of Trenton for the sum of \$4,000, to raise the sum of \$4,000 to be used to purchase said lands and premises, to aid the said company by way of a bonus and to grant a fixed annual assessment of the property of the said company within the said Town of Trenton for a period of ten years from the first day of January, 1914," was duly submitted to the electors of the Town of Trenton legally qualified to vote upon such by-law on the sixth day of January, A.D. 1913, and received their assent;

And whereas in pursuance of the proper assent of the said rate-payers of the said town the Municipal Council of the said Town of Trenton did on the 15th day of January, A.D. 1913, pass the said by-law and the same was signed by the mayor and clerk of the said town, sealed with the seal of the said corporation and numbered 1058;

And whereas it is provided in said by-law that the debentures issued under its authority shall bear interest at the rate of five per cent. per annum and be payable at the times and in the amounts as set out in Schedule "A" attached to said by-law;

And whereas there has been such an advance in the rates of interest, that the said debentures could not be sold except at such a discount as to make a great reduction in the amount required to be provided for, and it is deemed expedient to issue the said debentures for said sum bearing six per cent. instead of five per cent. as authorized in said by-law;

And whereas in order thereto the amount required by *The Municipal Act* to be raised annually by special rate for paying the said debt and interest is \$543.47, as set out in schedule hereto annexed;

And whereas by said by-law the first debenture would be due and payable on the 1st day of November, 1913, as set out in the said Schedule "A" attached thereto, and others in regular succession following;

And whereas said debentures have not been issued nor has there been any levy of any special rate to meet the payment of the said debenture which would fall due on the 1st day of November, 1913;

And whereas it is expedient to pass a by-law amending said By-law 1058 raising the rate of interest on debentures to be issued thereunder to six per cent. and repealing Schedule "A" thereto attached and substituting Schedule "A" attached to this by-law, and extending the time for the issue of said debentures;

Therefore, the Municipal Council of the Corporation of the Town of Trenton enacts as follows:—

1. That sections 7 and 8 of said By-law No. 1058 be and the same are hereby repealed and the following substituted therefor:—

(7) The said debentures shall bear interest at the rate of six per cent. per annum payable yearly as set forth in Schedule "A" attached to this by-law at the office of the treasurer of the Municipal Corporation of the Town of Trenton, and shall have attached to them coupons for the payment of the said interest, which coupons shall be signed by the mayor and treasurer.

1. WHEREAS the Council of the Corporation of the Preamble. Village of Mimico have by their petition represented that the Council of the County of York pursuant to the provisions of the Statute of Ontario, entitled *An Act for the Improvement of Public Highways* and at the request of the petitioners undertook the construction of a Dolarway pavement on the Lake Shore Road through the Village of Mimico from the easterly to the westerly boundary thereof, the cost of such pavement to the amount of seven thousand dollars per mile to be borne and paid by the Corporation of the County of York upon the condition that the balance of the cost over and above that sum should be borne and paid by the Corporation of the Village of Mimico; that a petition signed by a large number of the owners of the lands fronting or abutting upon the said road within the limits aforesaid was presented to the petitioners praying that the said pavement might be constructed and a portion of the cost thereof might be specially assessed upon the lands fronting or abutting thereon under the provisions of *The Local Improvement Act*; that the petitioners thereupon passed their By-law No. 35 set forth as Schedule "A" hereto declaring that it is desirable that the construction of the said pavement should be undertaken as a local improvement and that it would be inequitable to charge all of such cost over and above the said sum of \$7,000 per mile upon the lands fronting or abutting thereon and that the corporation should pay one-quarter of such cost; that the said pavement has been constructed part of the way through the said village, a distance of feet, at an estimated cost of \$., but the construction of the remaining portion thereof has been deferred; that provision for immediate payment for the part constructed requires to be made; that doubts have arisen respecting the validity of the said proceedings taken by the petitioners and respecting the validity of their said by-law; that the construction of the

said pavement is of great benefit to the municipality at large and to the lands fronting or abutting thereon and that it is just and equitable that the cost of the said pavement should be borne and paid in the manner above set forth; and the petitioners have by their said petition prayed that their said proceedings may be confirmed; that the said corporation may be authorized to pay the cost of the said pavement over and above seven thousand dollars per mile as a local improvement constructed under the provisions of *The Local Improvement Act* and for that purpose to borrow money by the issue of debentures in the manner provided by the said Act; that their said By-law Number 35 may be confirmed; and whereas it is expedient to grant the prayer of the said petitioners;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

Construction
of Dolarway
pavement
deemed a
local im-
provement.

1. The construction of the said Dolarway pavement on the Lake Shore Road in the Village of Mimico from the easterly boundary to the westerly boundary of the Municipality shall, for the purpose of enabling the corporation to pay to the County of York the cost thereof over and above seven thousand dollars per mile and for that purpose to borrow money by the issue of debentures be deemed to be a work undertaken by the Council of the Corporation of the Village of Mimico as a local improvement under the provisions and within the meaning of *The Local Improvement Act*.

By-law No.
35 con-
firmed.

2. By-law Number 35 of the council of the said corporation intituled "By-law No. 35, respecting the paving of the Lake Shore Road between the East and West limits of the Village of Mimico" as set forth in Schedule "A" hereto, is hereby confirmed and declared to be valid and binding upon the Corporation of the Village of Mimico and upon the municipal council and the ratepayers of the said corporation and upon all lands fronting or abutting upon the Lake Shore Road in the said municipality. The said by-law is hereby declared to be a by-law for undertaking the said work under the provisions of section 9 of *The Local Improvement Act* and sufficient authority for undertaking the work and it shall be deemed not to have been necessary for the council before passing the said by-law to cause any notice of its intention to undertake the said work to be published.

Application
of provi-
sions of
Rev. Stat.
c. 193.

3. The provisions of *The Local Improvement Act* shall for the purposes hereinbefore declared apply to the said work, and the council may proceed under the provisions of

the said Act and from time to time pass by-laws thereunder, providing for borrowing by the issue of debentures the moneys required to pay the Corporation of the County of York the cost, or any part of the cost from time to time due to such corporation, together with a sum sufficient to pay the cost of obtaining this Act and issuing such debentures.

4. Any by-law passed under the authority of this Act and substantially complying with the provisions thereof and the rates thereby imposed shall be legal, valid and binding upon the Corporation of the Village of Mimico and the rate-payers thereof, and upon the lands upon which any such rates are so imposed.

5. All debentures issued or to be issued under any by-law passed under the provisions of this Act and substantially complying with the provisions of the by-law under which the same are issued shall be legal, valid and binding upon the said corporation and the ratepayers thereof, and it shall not be necessary for the purchaser of any of the said debentures to inquire into the validity of the by-law or by-laws under the authority of which the same are issued.

SCHEDULE "A."

BY-LAW No. 35.

Respecting the paving of the Lake Shore Road between the east and west limits of the Village of Mimico.

Whereas the County Council of the County of York, acting under *The Highway Improvement Acts*, has undertaken to pave the Lake Shore Road between the east and west limits of the Village of Mimico with a Dolarway pavement, upon condition that the Corporation of the Village of Mimico should pay the part of the cost thereof over and above the sum of seven thousand dollars per mile of the said road;

And whereas a largely-signed petition of the owners of property fronting and abutting upon the said road, has been received, praying that the said road may be paved upon the terms herein contained;

And whereas the council of the said village has determined that the said work (so far as relates to the part of the cost not assumed by the said county council) should be undertaken as a local improvement;

Therefore, the Council of the Corporation of the Village of Mimico, by a vote of two-thirds of all the members thereof, enacts as follows:—

1. The council hereby declared that it is desirable that the construction of a Dolarway Pavement on the Lake Shore Road, between the east and west limits of the Village of Mimico, should be undertaken as a local improvement, the Council of the County of York constructing the work and paying seven thousand dollars per mile of the cost thereof.

2. And the said council being of opinion that it would be inequitable to charge all the cost of the work over and above the contribution by the said county council on the land abutting directly thereon, hereby declares and provides that the corporation shall pay one-quarter of the said cost over and above the said contribution.

And whereas the amount of the whole rateable property of the Corporation of the Town of Warton, according to the last revised assessment roll, is seven hundred and sixteen thousand five hundred and sixty-six (\$716,566) dollars;

An Act respecting the City of Ottawa

WHEREAS the Provincial Board of Health has reported in writing, pursuant to the provisions of *The Public Health Act*, that it is of opinion that it is necessary in the interest of the public health that an improved waterworks system should be established for the City of Ottawa; and whereas the Corporation of the City of Ottawa was authorized by chapter 109 of the Acts passed in the third and fourth years of the reign of His Majesty King George V. to take from any lake or lakes in the County of Ottawa, in the Province of Quebec, and convey to the said city a supply of water for its waterworks, its municipal purposes, and for the use of the inhabitants of the said city, and to construct, maintain and operate all such works and acquire by gift, purchase or expropriation and hold all such water, lake or lakes, land and water powers as may be necessary for the said purposes in the said city and in the County of Ottawa, in the Province of Quebec; and whereas the said corporation was further authorized by chapter 166 of the Acts passed by the Parliament of the Dominion of Canada in the third and fourth years of the reign of His Majesty King George V. to exercise the like powers to those authorized by the said chapter 109; and whereas the said corporation has procured plans, specifications and an engineer's report of a water supply and works to be undertaken by the said corporation from Sir Alexander R. Binnie, M.I.C.E., in the month of October, A.D. 1913, the source of supply being a chain of lakes in the said County of Ottawa, in the Province of Quebec, known as Thirty-One Mile Lake, Pemi-changan Lake and Long Lake and the watersheds surrounding the same; and whereas the said corporation has had a report in writing as to the quality of the water contained in the said lakes prepared by A. C. Houston, M.D.; and whereas the said plans, specifications and reports were duly submitted to the Provincial Board of Health pursuant to the provisions of *The Public Health Act*, and the said Board

has approved of the said source of supply and of the carrying out of the said works as recommended in the said reports, and has reported in writing that it is of opinion that it is necessary in the interest of the public health that such works should be established; and whereas the said corporation duly passed certain by-laws providing for the carrying out of the works recommended by the said reports, which by-laws were quashed and declared invalid by the Supreme Court of Ontario upon the ground, among other grounds, that authority for the carrying out of the said works had not then been obtained from the Legislature of the Province of Quebec; and whereas the said corporation has since been authorized by the Legislature of the Province of Quebec, by an Act passed at the last session thereof, to carry out the works recommended by the said reports; and whereas the said corporation has by its petition asked for further legislation to enable it to proceed with the said works; and whereas the said corporation has had certain further plans, specifications and an engineer's report of a water supply and works to be undertaken prepared by Archibald Currie, C.E., bearing date February 21, A.D. 1914, and providing for the installation of a new system of water supply, the source of supply being at a point in the Ottawa River, and the said report providing for mechanical filtration of the water of the said Ottawa River; and whereas certain questions have been submitted to a vote of the municipal electors of the City of Ottawa, pursuant to the provisions of an Act passed at the now present session of the Legislative Assembly of the Province of Ontario, as a result of which 11,270 of the said electors expressed themselves as in favor of an improved water supply for the City of Ottawa and 1,568 of the said electors expressed themselves as opposed to an improved water supply for the City of Ottawa, and 6,236 of the said electors expressed themselves as in favor of the Thirty-one Mile Lake scheme as reported upon by Sir Alexander R. Binnie and Dr. A. C. Houston, and 7,544 of the said electors expressed themselves as in favor of the Ottawa River mechanical filtration scheme as reported upon by Archibald Currie, C.E., in his report of February 21, 1914; and whereas the plans, specifications and report of the said Archibald Currie, C.E., have been submitted to the Provincial Board of Health, pursuant to the provisions of *The Public Health Act*, but have not yet been approved by the said Board; and whereas it is provided by *The Public Health Act* that no such works as those hereinbefore recited shall be undertaken or proceeded with until the source of supply and the proposed works have been approved by the said Board; and whereas it is expedient that provision should be made

for the establishment of an improved system of water supply for the City of Ottawa;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. In the event of the plans, specifications and report of Archibald Currie, C.E., dated February 21, 1914, being a report upon an improved supply of water to the City of Ottawa by way of mechanical filtration of the Ottawa River, being approved by the Provincial Board of Health, the Corporation of the Municipality of the City of Ottawa shall forthwith pass all necessary by-laws for raising a sum not exceeding \$1,700,000 for the establishment of the works reported upon by Archibald Currie, C.E., for the establishment of the said works, and shall immediately commence the works provided for by the said plans, specification and report, and shall carry the same to completion without unnecessary delay.

2. It shall not be necessary to obtain the assent of the electors of the City of Ottawa to any by-law for incurring a debt for the purpose of the construction of the works provided for by the said report of the said Archibald Currie, C.E., if so approved by the Provincial Board of Health as aforesaid.

3. Should the council of the said corporation fail to pass the necessary by-law or by-laws for the establishment of the works reported upon by the said report within one month after receipt of notice by the city clerk of the said corporation of the approval by the Provincial Board of Health of the said plans, specification and report, the Provincial Board of Health may itself proceed and establish all the works reported upon by the said report, and shall for that purpose have all the powers of the Municipal Corporation of the City of Ottawa, and any by-law passed by the Provincial Board of Health for the establishment of the said works or for the raising of money in connection therewith shall have the same force and effect as if passed by the Municipal Corporation of the City of Ottawa.

4. Should the Provincial Board of Health refuse to approve the said plans, specification and report of the said Archibald Currie, C.E., the council of the said Municipality of Ottawa shall immediately after notification of such refusal to the city clerk of the said corporation commence and carry to completion without unnecessary delay the work

recommended in the plans, specifications and reports of Sir Alexander R. Binnie and Dr. A. C. Houston in the month of October, 1913.

5.—(1) It shall not be necessary to obtain the assent of the electors of the City of Ottawa to any by-law for incurring a debt for the purpose of the construction of the said works so reported upon by the said Sir Alexander R. Binnie and Dr. A. C. Houston, but in the event of it becoming the duty of the council of the said corporation to undertake the said work, by-law number 3678 of the City of Ottawa, set out in schedule "A" hereto as amended by subsection 2 of this section, shall be and become confirmed and declared to be legal, valid and binding, and the said corporation shall borrow a sum not exceeding eight million dollars (\$8,000,000) to provide for the cost of the construction of the said works and acquisition of the water, lake or lakes, land and water powers necessary in connection therewith as provided by the said by-law, and may expend the whole of the said sum or such part thereof as may be necessary in the construction of works and the acquisition of the water, lake or lakes, land and water powers outside of the Province of Ontario in like manner in all respects as if the same were within the Province of Ontario, and all debentures issued or to be issued under the said by-law, and all levies, rates and assessments made or to be made for payment of the said debentures shall be and become confirmed and declared to be legal, valid and binding upon the said corporation and the ratepayers thereof.

(2) In the event of the said by-law 3678 being confirmed as in the last subsection hereof provided, it shall be amended by striking out the words and figures "thirty (30)" whenever they occur in the said by-law and by substituting therefor the words and figures "fifty (50)," and by striking out the words and figures "one hundred and forty-two thousand six hundred and fifty dollars (\$142,650)" wherever they occur in the said by-law and by substituting therefor the words and figures "fifty-two thousand five hundred dollars (\$52,500)," and by striking out the words and figures "five hundred and two thousand six hundred and fifty dollars (\$502,650)" wherever they occur in the said by-law and by substituting therefor the words and figures "four hundred and twelve thousand five hundred dollars (\$412,500)."

6. Should the council of the said corporation fail to proceed with the work as directed by section 4, or if in the opinion of the Provincial Board of Health there should be any unnecessary delay in carrying the said work to com-

pletion, the Provincial Board of Health may itself proceed and establish to carry to completion all the works reported upon by the said Sir Alexander R. Binnie and Dr. A. C. Houston, and shall for that purpose have all the powers of the Municipal Corporation of the City of Ottawa, and any by-law passed by the Provincial Board of Health for the establishment or completion of the said works or for the raising of money in connection therewith shall have the same force and effect as if enacted by the Municipal Corporation of the City of Ottawa.

7. Any plans, specifications and engineer's reports submitted to the Provincial Board of Health and approved by the Board in connection with any work undertaken under the provisions of this Act shall be deemed to be a sufficient compliance with the provisions of *The Public Health Act* as to the submission of plans, specifications and engineer's reports, but the Board may nevertheless, from time to time during the course of the construction of any works undertaken under the provisions of this Act, require further or detailed plans and specifications to be submitted for approval, and the works in accordance with the said further detailed plans and specifications shall not be proceeded with until such detailed plans and specifications have been approved by the Board.

8. No action, motion or legal proceeding shall be had, taken or made to prevent, delay or interfere with the construction of any works undertaken under the provisions of this Act with the approval of the Provincial Board of Health, or with any proceedings had or taken by either the Municipal Corporation of the City of Ottawa or the said Board in carrying out any of the provisions of this Act.

SCHEDULE "A."

BY-LAW No. 3678.

A By-law to authorize the issue of debentures of the Corporation of the City of Ottawa to the amount of eight million dollars (\$8,000,000.00) for the purpose of providing for the cost of acquiring a supply of water for the Waterworks of the said Corporation and for the acquisition of the necessary lands and for the construction of the necessary works.

Whereas, by Section 2 of Chapter 109 of the Acts of the Legislature of the Province of Ontario, passed during the Session thereof held in the third and fourth years of the reign of His Majesty King George V, and intituled "An Act respecting the City of Ottawa," the Corporation of the City of Ottawa was authorized to take from any lake or lakes in the County of Ottawa, in the Province of Quebec, and convey to the said city a supply of water for its Waterworks, its municipal purposes and the use of the inhabitants of the said city.

And, whereas, by sub-section 3 of Section 2 of the said Act, it was further enacted that the said Corporation might construct, maintain and operate all such works, and acquire by gift, purchase or expropriation, and hold all such water, lake or lakes, land and water powers as might be necessary for the said purposes, in the City of Ottawa, and the County of Carleton, in the Province of Ontario, and in the County of Ottawa, in the Province of Quebec.

And, whereas, by an Act of the Parliament of the Dominion of Canada, chaptered 166 of the Acts passed during the Session thereof, held in the third and fourth years of the reign of His Majesty King George V, and intituled "The City of Ottawa Water Act, 1913," the said Corporation was authorized and empowered, with the consent and subject to the approval of the Government of the Province of Quebec, to take a supply of water from any lake or lakes in the County of Ottawa, in the Province of Quebec, except Big White Fish Lake, a tributary of the Lievre River, for its municipal purposes and the use of the inhabitants of the said city, and for such other purposes as will more fully appear by reference to the said Act, and to convey water from any such lakes to the said City of Ottawa.

And, whereas, by the said City of Ottawa Water Act, 1319, it was further provided that the said Corporation might construct, maintain and operate all such works as are necessary or advantageous for the purposes set out in the said Act.

And, whereas, by the said City of Ottawa Water Act, 1913, it was further provided that the said Corporation might with the consent and subject to the approval of the Government of the Province of Quebec, enter upon and take any of the ungranted lands of the Crown in the said County of Ottawa, and might acquire, by gift, purchase, lease or expropriation, such other lands, lakes and water and such water powers, rights, easements and servitudes as are necessary for the purpose of the said Act, and might hold and use the same.

And, whereas, the said Corporation have had a survey of the water, lakes and lands situate in the said County of Ottawa, in the Province of Quebec, known as Thirty-One Mile Lake, Pemichangan Lake and Long Lake, and of the watersheds surrounding the same and contiguous thereto, and of the lakes, rivers, streams, lands and waters comprised within the said watersheds, made by Sir Alexander R. Binnie, M.I.C.E., who has reported, in writing, to the Council of the said Corporation in the month of October, A.D. 1913, recommending that the said Corporation should procure a supply of water from the said lakes.

And, whereas, the said Corporation have had a report in writing as to the quality of the water contained in the said lakes prepared by A. C. Houston, M.D.

And, whereas, the said reports have been submitted to, and have been approved of by the Council of the said Corporation at a special meeting thereof, held at the City of Ottawa, on the seventeenth day of October, A.D. 1913.

And, whereas, the said survey and reports have been submitted to and approved of by the Provincial Board of Health of the Province of Ontario.

And, whereas, pursuant to the provisions of the Public Health Act, the said Provincial Board of Health has approved of the source of supply of the said water and of the carrying out of the said works as recommended in the said reports, and have reported, in writing, that it is of the opinion that it is necessary in the interest of the public health that the said works should be established.

And, whereas, by reason of the provisions of the Public Health Act, it is necessary and desirable that the said Corporation should exercise the powers conferred upon it by the said above mentioned Acts of the Legislature of the Province of Ontario, and of the Parliament of the Dominion of Canada respectively, and all other powers and authority vested in them by any and all other Act or Acts of the said Legislature, and of the said Parliament, or by any other Parliament or Legislature, or by any other lawful and competent authority them enabling.

And, whereas, the said Corporation proposes to exercise all such powers and authority so far as the exercise thereof may be necessary and convenient to authorize, empower and enable the said Corporation:

(a) To take a supply of water from those certain lakes situate in the County of Ottawa, in the Province of Quebec, known and laid down upon the official plans of the said County of Ottawa as Thirty-One Mile Lake, Pemichangan Lake, and Long Lake, or from some one or more of them, and from the lakes, rivers, streams, lands, waters and watersheds surrounding the same and contiguous thereto, for its municipal purposes and for the use of the inhabitants of the said City of Ottawa, and for such other purposes as are authorized by the said Act of the Parliament of the Dominion of Canada, intituled "The City of Ottawa Water Act, 1913."

(b) To convey such water from such lakes, or from any one or more of them, to the said City of Ottawa, and to such other municipal corporations in the Provinces of Ontario and Quebec as the said Corporation may be authorized and may agree to supply under such terms, contracts and agreements, and for such rents, prices, rates and considerations as may be agreed upon between the said Corporation and such other Municipal Corporations.

(c) To enter upon, take, purchase, acquire, lease and expropriate, and to hold and use all lands, lakes, water, water powers, rights, easements and servitudes as may be necessary for such purposes, to make payment therefor, and to compensate such persons, co-partnerships, corporations and bodies as may be injuriously affected in respect of any property, right, interest, timber license or other license, easement or servitude.

(d) To construct, maintain, repair and operate all such works as are necessary or advantageous for the purposes aforesaid.

(e) To enter into all necessary and proper contracts, agreements, leases and conveyances as may be necessary or expedient to enable the said Corporation to fully exercise the said powers.

(f) And generally to exercise all such rights, powers and privileges as the said Corporation lawfully may exercise to provide for the construction, maintenance and operation of the said works.

And, whereas, it will be necessary for the said Corporation to construct, maintain and operate, as part of the said works, a reservoir or reservoirs for the storing of water at or near the unincorporated village of Chelsea, in the said County of Ottawa, and to enter upon, take, purchase, expropriate and acquire all necessary land, water, buildings, premises, rights, interest, easements and servitudes as may be expedient or necessary for the said purposes and to hold and use the same.

And, whereas, it will be necessary for the said Corporation to carry its proposed water pipe line or pipe lines over the waters of the Ottawa River and of the Gatineau River by means of certain bridges or erections to be constructed, erected and maintained with the approval of the Minister of Public Works for Canada.

And, whereas, it will be necessary for the said Corporation to have detailed surveys made of the lakes, lands, water and water powers to be taken and used and of the route to be followed in conducting the said water from the said lakes to the said City of Ottawa, and to have proper and sufficient plans, specifications, reports and profiles of the said works prepared for the use of the said Corporation in connection with the undertaking, completion and maintenance of the said works.

And, whereas, for the effectual carrying out of the said works, it is necessary to raise by debentures of the said Corporation the sum of eight million dollars (\$8,000,000.00) the proceeds of the said debentures to be applied for the said purposes and no other.

And, whereas, the amount of the whole rateable property of the said Corporation, according to the last revised Assessment Roll thereof, is ninety-five million, seven hundred and twenty thousand, six hundred and seventy-six dollars (\$95,720,676.00).

And, whereas, the whole of the existing debenture debt of the said municipality, exclusive of the local improvement debt secured by special rates and assessments, is eight million, one hundred and forty-three thousand, two hundred and sixteen dollars and fifty-one cents (\$8,143,216.51), whereof no part of the principal or interest is in arrear.

And, whereas, it is desirable and necessary, for the purposes aforesaid, to issue debentures of the said Corporation amounting to eight million dollars (\$8,000,000.00), such debentures to bear interest at the rate of four and one-half per centum (4½%) per annum and to be paid in thirty (30) years from the date of issue of such debentures.

And, whereas, it will require the sum of three hundred and sixty thousand dollars (\$360,000.00) to be raised annually by a special rate for the payment of interest upon the said debentures each year during the currency thereof, and also a further sum of one hundred and forty-two thousand, six hundred and fifty dollars (\$142,650.00) to be raised annually by a special rate each year during the currency of the said debentures for the purpose of creating a sinking fund for the payment of the said debentures, which sum will be sufficient with the estimated interest on the investment thereof to discharge the said debt when payable; making in all the sum of five hundred and two thousand, six hundred and fifty dollars (\$502,650.00) to be raised annually as aforesaid.

Therefore, the Municipal Council of the Corporation of the City of Ottawa enacts as follows:

1. It shall be lawful for the said Corporation to raise, by way of loan upon the security of debentures of the said Corporation from any person or persons, co-partnerships, body or bodies corporate, who may be willing to advance a sum not exceeding in the whole the sum of eight million dollars (\$8,000,000.00) for the purposes above recited.

2. It shall be lawful for the said Corporation to issue debentures to the amount of the said eight million dollars (\$8,000,000.00) in all, said debentures to be in sums of not less than \$100 Canadian currency or £20 Sterling, and to be sealed with the Seal of the said Corporation and signed by the Mayor and Treasurer thereof.

3. 4. The said debentures shall be dated the first day of July, A.D. 1914, and shall bear interest at the rate of four and one-half per centum (4½%) per annum from the date thereof, which interest shall be payable half yearly on the first days of the months of January and July in each year at the head office of the Bank of Ottawa, in the city of Ottawa, or at the National Bank of Commerce aforesaid, in the City of New York, or at any chartered bank in London, England.

5. During the currency of the said debentures there shall be raised annually, by a special rate for the payment of interest upon the said debentures, the sum of three hundred and sixty thousand dollars (\$360,000.00), and also a further sum of one hundred and forty-two thousand, six hundred and fifty dollars (\$142,650.00) to be raised annually by a special rate during the currency of the said debentures for the purpose of creating a sinking fund for the payment of the said debentures, making in all the sum of five hundred and two thousand, six hundred and fifty dollars (\$502,650.00) to be raised annually as aforesaid.

6. The said sum of one hundred and forty-two thousand, six hundred and fifty dollars (\$142,650.00) to be raised annually during the currency of the said debentures for the purpose of creating a sinking fund for the payment thereof, shall whenever and so often as it is raised by the said Corporation be paid by the Treasurer thereof to the Treasurer of the Province of Ontario so long as interest thereon at the rate of four per centum (4%) per annum, compounded yearly, is allowed thereon.

7. The said sum of eight million dollars (\$8,000,000.00) when obtained shall be applied to the purposes heretofore mentioned and to no other.

WHEREAS the Corporation of the Town of North Bay has by petition represented that on the 6th day of May, 1912, a vote of the ratepayers of the said Town of North Bay was taken on a by-law to provide for the raising of the sum of \$80,000 by way of a loan upon security of debentures of the Town of North Bay, in the District of Nipissing, and for expending the said moneys in blasting, excavating and removing rock from the said public highways in the said town, breaking and crushing said rock and spreading same on the public highways of the said town, and making and building roadways and highways within the limits of the said town; that the said by-law was carried by the said ratepayers by a majority of 159 votes; that the said by-law was afterwards, on the 21st day of May, 1912, finally passed by the municipal council of the said town; that the said by-law so passed by the said town provided that the debentures to be issued under the said by-law should extend over a period of thirty years; that according to the provisions of *The Consolidated Municipal Act of 1903*, section 384, subsection 4, which were in force at the time of the passing of the said by-law, the said council had no authority to issue debentures for the purposes mentioned in the said by-law for a longer period than twenty years; that the necessary notice attached to the end of the said by-law did not set out the conditions under which leaseholders in the said town would be entitled to vote on the said by-law; that the debentures issued under the said by-law for the said period of thirty years have been sold, but the purchasers have declined to pay over the purchase money for the said debentures until the errors in the said by-law have been rectified; and whereas the said corporation has by its petition prayed that the said By-law Number 339 and the rates thereby imposed, the debentures issued or to be issued thereunder, may be declared to be legal and valid

BILL

An Act to amend The Ontario Insurance Act,

HIS MAJESTY, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. This Act may be cited as *The Ontario Insurance Amendment Act*. Short title.

2. Subsection (5) of Section 108 of *The Ontario Insurance Act* is hereby repealed and Subsections (6), (7), (8), (9) and (10) of said Section 108 are hereby re-numbered respectively as Subsections (5), (6), (7), (8) and (9). Rev. Stat. c. 183, s. 108, amended.

3. The said *Ontario Insurance Act* is hereby amended by inserting therein the following Sections: Friendly Societies to furnish triennial report relating to actuarial liabilities.

78a. In addition to the annual statement required to be filed by each Society under Section 108, each Society shall triennially report to the Registrar a valuation of its certificates in force on December 31st last preceding such statement excluding those issued within the last year for which the statement is filed, in cases where the contributions for the first year in whole or in part are used for current mortality and expenses; provided the first report of valuation shall be made as of December 31st, 1917. Such report of valuation shall show, as contingent liabilities the present mid-year value of the promised benefits provided in the constitution and laws of such society under certificates then subject to valuation; and as contingent assets, the present mid-year value of the future net contributions provided in the constitution and laws as the same are in practise actually collected. At the option of any society, in lieu of the above, the valua-

tion may show the net value of the certificate subject to valuation as hereinbefore provided, and said net value, when computed in case of monthly contributions, may be the means of the terminal values for the end of the preceding and of the current insurance years.

By whom valuation to be prepared, method of preparation and time for filing.

Such valuation shall be certified by a competent accountant or actuary, and shall be filed with the Registrar within ninety days after the submission of the last preceding annual statement. The legal minimum standard of valuation for all certificates, except for disability benefits, shall be the Table of Mortality from which the table of rates set forth in Schedule "A" of the *Ontario Insurance Act* was deduced, or at the option of the Society any higher table; or at its option, it may use a table based upon the Society's own experience of at least twenty years, and covering not less than fifty thousand lives with interest assumption not more than four per centum per annum. Each such valuation report shall set forth clearly and fully the mortality and interest basis and the method of valuation. Any society providing for disability benefits shall keep the net contributions for such benefits in a fund separate and apart from all other benefit and expense funds, and the valuation of all other business of the Society, provided, that where a combined contribution table is used by a Society for both death and permanent disability benefits, the valuation shall be according to tables of reliable experience and in such a case a separation of the funds shall not be required.

Financial solvency, how estimated.

The valuation herein provided for shall not be considered or regarded as a test of the financial solvency of the Society, but each Society shall be held to be legally solvent so long as the funds in its possession are equal to or in excess of its matured liabilities.

Distribution of report to members.

78b. Beginning with the year 1918, a report of such valuation and an explanation of the facts concerning the condition of the Society, thereby disclosed shall be printed and mailed to each beneficiary member of the Society not later than June 1st of each year in which each triennial report of valuation is made, or, in lieu thereof, such report of valuation and

showing of the Society's condition as thereby disclosed may be published in the Society's official paper, and the issue containing the same mailed to each beneficiary member of the Society. The laws of such Society shall provide that if the stated periodical contributions of the members are insufficient to pay all matured death and disability claims in full, and to provide for the creation and maintenance of the funds required by its laws, additional, increased or extra rates of contribution shall be collected from the members to meet such deficiency; and such laws may provide that upon the written application or consent of the member, his certificate may be charged with its proportion of any deficiency disclosed by valuation, with interest not exceeding five per centum per annum.

78c. If the valuation of the Certificates, as hereinbefore provided, on December 31st, 1917, shall show that the present value of future net contributions, together with the admitted assets, is less than ninety per centum of the present value of the promised benefits and accrued liabilities, such Society shall be required thereafter to reduce such deficiency not less than five per centum of the total deficiency on said December 31st, 1917, at each succeeding triennial valuation. If at any succeeding triennial valuation such Society does not show such percentage of improvement, the Registrar shall direct that it thereafter comply with the requirements herein specified. If the next succeeding triennial valuation after the receipt of such notice shall show that the Society has not made the percentage of improvement required herein, the Registrar may, in the absence of good cause shown for such failure cancel the certificate of registry of any such Society.

Any such Society, shown by any triennial valuation, subsequent to December 31st, 1917, not to have made the improvement herein required shall, within one year thereafter, complete such deficient improvement, or thereafter as to all new members admitted, be subject, so far as stated rates of contribution are concerned, to Schedule "A" of the *Ontario Insurance Act* provided that the contributions and funds of such new members shall be kept separate and apart from the

Society to maintain proper reserve.

Time within which deficiency to be made up.

other funds of the Society until the required improvement shall be shown by valuation. If such required improvement is not shown by the succeeding triennial valuation, then the said new members may be placed in a separate class and their certificates valued as an independent Society in respect of contribution and funds.

Power of Registrar to examine affairs of Society.

The Registrar, or any person he may appoint shall have the power of visitation and examination into the affairs of any such Society failing to reduce such deficiency in the manner aforesaid. He may employ assistants, for the purposes of such examination, and he, or any person he may appoint, shall have free access to all the books, papers and documents that relate to the business of such Society and may summon and qualify as witness under oath and examine its officers, agents and employees or other persons in relation to the affairs, transactions and conditions of such Society.

Power to cancel the registry of the Society.

Whenever after examination the Registrar is satisfied that any such Society has failed to comply with any provisions of this Act, or is exceeding its powers, or is not carrying out its contracts in good faith, or is transacting business fraudulently; or whenever any such Society, after the existence of one year or more, shall have a membership of less than 400, or shall determine to discontinue business, the Registrar may cancel the certificate of registry of any such Society, and thereafter the said Society shall be wound up under the provisions of Sections 212 to 231 of this Act, provided, however, that no certificate of registry shall be cancelled by the Registrar under this section until after notice has been duly served on the Chief Executive Officers of such Society, and a reasonable opportunity given to it on a date to be named in such notice to show cause why said certificate of registry should not be cancelled.

Power of Registrar to examine affairs of foreign Society.

78d. The Registrar, or any person whom he may appoint, may examine any foreign Society transacting or applying for admission to transact business in this Province. The said Registrar may employ assistants, and he, or any person he may appoint, shall have free access to all the books, papers and documents that relate to the business of the Society, and may summon and

qualify as witness under oath and examine its officers, agents and employees and other persons in relation to the affairs, transactions and condition of the Society. He may, in his discretion, accept in lieu of such examination the examination of the Department of Insurance of the Province where such Society is organized.

If any such Society or its officers refuse to submit to such examination or to comply with the provisions of the section relative thereto, the authority of such Society to write new business in this Province shall be suspended or Certificate of Registry refused until satisfactory evidence is furnished the Registrar relating to the condition and affairs of the Society and during such suspension the Society shall not write new business in this Province.

Effect of
Society's
refusal to
give in-
formation.

78e. Pending, during, or after an examination or investigation of any such Society, either domestic or foreign, the Registrar shall make public no financial statement, report or finding, nor shall he permit to become public any financial statement, report or finding affecting the status, standing or rights of any such Society, until a copy thereof shall have been served upon such Society, at its home office, nor until such Society shall have been afforded a reasonable opportunity to answer any such financial statement, report or finding, and to make such showing in connection therewith as it may desire.

Results of
investiga-
tion to be
withheld
pending
reply.

78f. When the Registrar on investigation is satisfied that any foreign Society transacting business under this Act has exceeded its powers, or has failed to comply with any of the provisions of this Act, or is conducting business fraudulently, or is not carrying out its contracts in good faith, he shall notify the Society of his findings, and state in writing the grounds of his dissatisfaction, and after reasonable notice require said Society, on a date named, to show cause why its certificate of registry should not be revoked. If on the date named in said notice such objections have not been removed to the satisfaction of the said Registrar, or the Society does not present good and

sufficient reasons why its authority to transact business in this Province should not be revoked, he may revoke the authority of the Society to continue business in this Province. All decisions and findings of the Registrar made under the provisions of this section, shall be subject to an appeal to the Appellate Division of the Supreme Court of Ontario.

BILL

An Act respecting the Public Construction and Operation of Electric Railways

WHEREAS it is expedient to provide for the economical and efficient construction and operation of electric railways in localities in which municipal corporations are willing to provide and bear the cost of the work, and that in order to further the success of the undertaking means should be provided for the co-operation of the municipal corporations interested and that the work should be undertaken by or under the direction of the Hydro-Electric Power Commission of Ontario acting for and on behalf of the municipal corporations interested; and whereas it appears that the funds required for carrying out any such undertaking can best be provided by the issue of bonds by the Commission, such bonds to be a charge upon the railway and other works comprised in the undertaking, the debentures of the several corporations interested being deposited as collateral security for the payment of the said bonds, and neither the Province nor the Commission being liable for the payment thereof except to the extent of the moneys received by the Commission from time to time from the municipal corporations;

Therefore His Majesty, by and with the advice and consent of the Legislative Assembly of the Province of Ontario, enacts as follows:—

1. This Act may be cited as *The Hydro-Electric Railway Act, 1914.* Short title.

2. In this Act,

Interpretation.

(a) "Commission" shall mean the Hydro-Electric Power Commission of Ontario. "Commission."

(b) "Corporation" shall mean a municipal corporation other than a municipal corporation of a county. "Corporation."

Inquiry and
report by
Commission

3. Whenever required by the Lieutenant-Governor in Council so to do, the Commission may enquire into, examine, investigate and report upon,—

Rev. Stat.,
c. 29.

- (a) the cost of constructing and operating an electric railway in any locality in which electrical power or energy may be supplied by the Commission under *The Power Commission Act*;
- (b) the municipalities the inhabitants of which will be served by the railway;
- (c) the population of each of such municipalities as shown by the last enumeration thereof by the assessors;
- (d) an estimate of the probable revenue from the railway;
- (e) the practicability of the undertaking and its economic value to the locality to be served by it.

Agreement
for construc-
tion and op-
eration by
Commission.

4.—(1) A corporation, or two or more corporations may, if authorized by the Lieutenant-Governor in Council so to do, enter into an agreement with the Commission for the construction, equipment and operation of an electric railway to be operated by electrical power or energy supplied by the Commission.

Provisions
of agree-
ment.

- (2) The agreement shall provide for
 - (a) the location of the line of the railway;
 - (b) the character of the equipment and service to be furnished and the maximum tolls or fares to be chargeable thereon;
 - (c) the proportion in which the cost of construction, equipment, maintenance and operation of the railway shall be borne by each of the corporations interested;
 - (d) the issuing of debentures of the corporation or of each of the corporations and their deposit with the Commission as collateral security for any bonds issued by the Commission for the construction of the railway;

(e) the proportion of the revenue from such railway to be paid annually by the Commission to each corporation after deducting the charges hereinafter mentioned;

(f) the construction of the railway upon any right of way acquired by the Commission for the transmission of electrical power or energy under *The Power Commission Act* and the amount chargeable to the railway by way of rental or otherwise for the use of such right of way.

(3) The agreement may be in the form or to the effect set out in Schedule "A" with such variations, additions or alterations as the Lieutenant-Governor in Council may approve.

(4) The agreement shall not be executed by the corporation or the Commission or come into effect until the terms thereof have been sanctioned by the Lieutenant-Governor in Council.

(5) After such sanction shall have been obtained the council of the municipal corporation or of each of the municipal corporations interested may by by-law passed with the assent of the municipal electors authorized to vote on money by-laws under *The Municipal Act* approve of the agreement and direct its execution.

5.—(1) The by-law submitted to the electors shall recite

(a) the estimated cost of the work;

(b) the portion of the cost of the construction and equipment of the line to be borne by the corporation of the municipality;

(c) the total annual amount estimated to be required for the maintenance of the railway and for sinking fund charges and interest;

(d) the portion of such amount to be borne by the municipality.

(2) The agreement shall be set out in the by-law or be published therewith.

6.—(1) The Commission may raise money for the construction and equipment of the railway by the issue for and

on behalf of the corporations of bonds charged upon and secured by the railway and all the assets, rights, privileges, revenue, works, property and effects belonging thereto or held or used in connection therewith and may from time to time increase such issue of bonds by any amount which it deems necessary to cover the cost of such construction and equipment or to provide for the extension or improvement of the railway.

(2) The bonds shall be payable in fifty years from the date of the issue thereof, but it shall not be necessary for the Commission to raise or provide for any sinking fund for the retirement of the bond until after the expiration of the first ten years of the said period of fifty years.

(3) In order to provide for the payment of such bonds as the same become due the Commission may out of the revenue of the railway after payment of working expenses including the supply of electrical power or energy and the cost of administration set aside a sufficient sum to provide a sinking fund for the purpose of redeeming the bonds at maturity.

7. Neither the Province of Ontario nor the Commission shall be liable in any manner for the payment of such bonds except to the extent of

- (b) the moneys received from the corporations or from the sale of the debentures of the corporations for the payment of the bonds and the interest thereon.

8.—(1) Notwithstanding anything contained in section 7, the Lieutenant-Governor in Council may authorize the Treasurer of Ontario, for and on behalf of the Province, to guarantee the payment of the bonds issued by the Commission.

(2) The form of the guaranty and the manner of its execution shall be determined by the Lieutenant-Governor in Council.

9.—(1) The council of every corporation entering into an agreement with the Commission under this Act shall annually raise and pay over to the Commission its proportion of such sums as may be required by it for working capital or to meet any deficit in the cost of maintenance and operation of the railway, including the cost of the supply of electrical power or energy by reason of the revenue from the railway being insufficient to meet such charges, and shall also annually raise and pay over to the Commission its proportion of a sum sufficient to meet the interest on any bonds issued by the Commission under the powers conferred by this Act, and an annual sum sufficient to form in forty years from the expiration of the first ten years of the currency of the bonds a sinking fund for their retirement at maturity.

10. The Commission shall annually adjust and apportion the amounts payable by the municipal corporations under the next preceding section.

11.—(1) After the execution of the agreement as provided by section 4 the corporations shall issue and deposit with the Commission debentures to the amounts respectively apportioned as their respective shares of the cost of the construction and equipment of the railway and shall from time to time thereafter upon the requisition in writing of the Commission issue and deposit with the Commission such further debentures as may be required for the construction, completion, extension or improvement of the railway, in the proportions fixed by the agreement.

(2) The debentures so issued shall be held by the Commission as collateral security for the bonds issued by the Commission under section 6, and when any corporation party to this agreement shall make default in any payment required to be made by it under this Act or under the agreement, the Commission shall thereupon sell or otherwise dispose of so much of the debentures of such corporation as shall be necessary to supply such deficiency.

(3) If the amount realized by the sale or other disposal of the debentures is insufficient, with the amount of the remaining debentures of the corporation to meet the share of the cost apportioned to the corporation, the corporation shall forthwith issue and deposit with the Commission debentures to a sufficient amount to make up the deficiency.

(4) It shall not be necessary to obtain the assent of electors to any by-law for the issue of debentures under this section.

SCHEDULE "A."

This indenture made the _____ day of _____, in the year of our Lord, one thousand nine hundred and _____,

Between

The Hydro-Electric Power Commission of Ontario (hereinafter called the "Commission") of the First Part,

and

the Municipal Corporation of _____ (hereinafter called the "Corporation") of the Second Part.

Whereas pursuant to *The Hydro-Electric Railway Act, 1914*, the Commission was requested to enquire into, examine, investigate and report upon the cost of construction and operation of an electric railway or railways to be constructed through certain districts in which the corporations are situated, together with the probable revenue that would result from the operation of such railway or railways;

And whereas the Commission has furnished the corporations with such a report showing (1) the total estimated capital cost, operating revenue and expenses of the railway or railways, and (2) the proportion of the capital cost to be borne by each of the corporations as set forth in schedule "B" attached hereto;

And whereas on receipt of the said report the corporations requested the Commission to construct, equip and operate a system of electric railways (hereinafter called the railway) over the routes laid down in schedule "A" attached hereto, upon the terms and conditions and in the manner herein set forth;

And whereas the Commission has agreed with the corporations on behalf of the corporations to construct, equip and operate the railway upon the terms and conditions and in the manner herein set forth; but upon the express condition that the Commission shall not in any way be liable by reason of any error or omission in any estimates, plans or specifications for any financial or other obligation or loss whatsoever by virtue of this agreement or arising out of the performance of the terms thereof;

And whereas the electors of each of the corporations have assented to by-laws authorizing the corporations to enter into this agreement with the Commission for the construction, equipment and operation of the railway as laid down in the said schedules, subject to the following terms and conditions;

And whereas the corporations have each issued debentures for the amounts set forth in schedule "B" attached hereto, and have deposited the said debentures with the Commission;

Now therefore this indenture witnesseth:—

1. In consideration of the premises and of the agreements of the corporations herein contained, and subject to the provisions of the said Act, the Commission agrees with the corporations respectively:—

(a) To construct, equip and operate the railway through the districts in which the corporations are situate on behalf of the corporations;

(b) To construct and operate the railway over the routes laid down in schedule "A";

(c) To issue bonds, as provided in paragraph 3 of this agreement, to cover the cost of constructing and equipping the railway;

(d) To furnish as far as possible first-class modern and standard equipment for use on the railway, to operate this equipment so as to give the best service and accommodation possible, having regard to the district served, the type of construction and equipment adopted, and all other equitable conditions, and to exercise all due skill and diligence so as to secure the most effective operation and service of the railway consistent with good management;

(e) To regulate and fix the fares and rates of toll to be collected by the railway for all classes of service.

(f) To utilize the routes and property of the railway for all purposes from which it is possible to obtain a profit;

(g) To combine the property and works of the railway and the power lines of the Commission where such combination is feasible and may prove economical to both the railway and the users of the power lines;

(h) To permit and obtain interchange of traffic with other railways wherever possible and profitable;

(i) To supply electrical power or energy for operation of the railway at rates consistent with those charged to municipal corporations;

(j) To apportion annually the capital costs and operating expenses of all works, apparatus and plant used by the railway in common with the Commission's transmission lines in a fair manner, having regard to the service furnished by the expenditure under consideration;

(k) To apply the revenue derived from operation of the railway and any other revenue derived from the undertaking to the payment of operating expenses (including electrical power), the cost of administration, and annual charges for interest and sinking fund on the money invested, and such other deductions as are herein provided for;

(l) To set aside from any revenue thereafter remaining an annual sum for the renewal of any works belonging in whole or in part to the undertaking;

(m) To pay over annually to the corporations, if deemed advisable by the Commission in the interests of the undertaking, any surplus that may remain after providing for the items above mentioned. The division of such surplus between the corporations to be fixed by the Commission on an equitable basis, having regard in the case of each corporation to the capital invested, the service rendered, the comparative benefits derived, and all other like conditions;

(n) To take active steps for the purpose of constructing, equipping and operating the railway at the earliest possible date after the execution of this agreement by the corporations and the deposit of the debentures as called for under clause 2 (b) hereof and to commence operation of each section as soon as possible after its completion.

(o) To make such extensions to the railway described in schedule "A" as may appear advantageous and profitable from time to time.

2. In consideration of the premises and of the agreements herein set forth, each of the corporations for itself, and not one for the other, agrees with the Commission:—

(a) To bear its share of the cost of constructing, equipping, operating, maintaining, repairing, renewing and insuring the railway and its property and works as established by the Commission, subject to adjustments and apportionment between the corporations by the Commission from time to time;

(b) To issue debentures for the amounts set forth in schedule "B" maturing in fifty years from the date of issue thereof, and payable yearly at the _____ Bank, at Toronto, Ontario. Such debentures shall be deposited with the Commission previous to the issuing of the bonds mentioned above, and may be held or disposed of from time to time by the Commission, as provided for in clause 4 hereof, in such amounts, at such rates of discount or premium, and on such terms and conditions as the Commission in its sole discretion shall deem to be in the interests of the railway, the proceeds of such debentures being used solely for the purposes herein contained. The amount of debentures of each corporation sold or disposed of from time to time shall be such proportion as may be fixed by the Commission of the total amount of debentures, due regard being given to the capital invested, the service rendered, the comparative revenue derived, and all other equitable conditions;

(c) To make no agreement or arrangement with, and to grant no bonus, license or other inducement to any other railway or transportation company without the written consent of the Commission;

(d) To keep, observe and perform the covenants, provisoes and conditions set forth in this agreement intended to be kept and observed and performed by the corporations, and to execute such further or other documents and to pass such by-laws as may be requested by the Commission for the purpose of fully effectuating the objects and intent of this agreement;

(e) To furnish a free right of way for the railway and for the power lines of the Commission over any property of the corporations upon being so requested by the Commission, and to execute such conveyance thereof or agreement with regard thereto as may be desired by the Commission.

3. It shall be lawful and the Commission is hereby authorized to create or cause to be created an issue of bonds, and to sell or dispose of the same on behalf of the corporations. Such bonds to be charged upon and secured by the railway, and all the assets, rights, privileges, revenues, works, property and effects belonging thereto or held or used in connection with the railway constructed, acquired, operated and maintained by the Commission under this agreement, and to be for the total amounts mentioned in schedule "B" hereto attached; provided that the Commission may, upon obtaining the consent as herein defined of the majority of the corporations, increase the said bond issue by any amount necessary to cover the capital cost of extending the railway, and may also without such consent increase the said bond issue to cover the cost of additional works or equipment of any kind for use on the railway to an extent not exceeding ten per cent. (10%) of the bonds issued from time to time. In order to meet and pay such bonds and interest as the same becomes due and payable the Commission shall in each year after the expiration of ten years from the date of the issue of the bonds out of the revenue of the railway after payment of

operating expenses (including electrical power) and the cost of administration set aside a sufficient sum to provide a sinking fund for the purpose of redeeming the same at maturity. Debentures issued by the corporations in compliance with clause (2b) hereof, shall, to the extent of the par value of any bonds outstanding from time to time, be held or disposed of by the Commission in trust for the holders of such bonds as collateral security for payment thereof; it being understood and agreed that in the event of any increase of the said bond issue each corporation shall, upon the request of the Commission, deposit with the Commission additional debentures as described in clause 2 (b) hereof, to be held or disposed of by the Commission as collateral security for such increase of the said bond issue, and that any debentures held by the Commission in excess of the par value of the outstanding bonds from time to time may be held or disposed of by the Commission to secure payment of any deficit arising from the operation of the railway.

4. In the event of the revenue derived from the operation of the undertaking being insufficient in any year to meet the operating expenses (including electrical power), the cost of administration and the annual charges for interest and sinking fund on the bonds, and for the renewal of any works belonging in whole or in part to the railway, such deficit shall be paid to the Commission by the corporations upon demand of and in the proportion adjusted by the Commission. In the event of the failure of any corporation to pay its share of such a deficit as adjusted by the Commission, it shall be lawful for the Commission in the manner provided in clause 2 (b) to dispose of debentures held by the Commission as security for any such deficit. Any arrears by any corporation shall bear interest at the legal rate.

5. Should any corporation fail to perform any of the obligations to the Commission under this agreement, the Commission may, in addition to all other remedies and without notice, discontinue the service of the railway to such corporation in default until the said obligation has been fulfilled, and no such discontinuance of service shall relieve the corporation in default from the performance of the covenants, provisions and conditions herein contained.

6. In case the Commission shall at any time or times be prevented from operating the railway or any part thereof by strike, lock-out, riot, fire, invasion, explosion, act of God, or the King's enemies, or any other cause reasonably beyond its control, then the Commission shall not be bound to operate the railway or such part thereof during such time; but the corporations shall not be relieved from any liability or payment under this agreement, and as soon as the cause of such interruption is removed the Commission shall, without any delay, continue full operation of the railway, and each of the corporations shall be prompt and diligent in doing everything in its power to remove and overcome any such cause or causes of interruption.

7. It shall be lawful for, and the corporations hereby authorize the Commission to unite the business of the railway with that of any other railway system operated in whole or in part by the Commission, and to exchange equipment and operators from one system to the other, proper provision being made so that each system shall pay its proportionate share of the cost of any equipment used in common.

8. If at any time any other municipal corporation applies to the Commission for an extension of the railway into its municipality the Commission shall notify the applicant and the corporations, in writing, of a time and place to hear all representations that may be made as to the terms and conditions relating to such proposed extension. If, on the recommendation of the Commission, such extension shall be authorized, without discrimination in favor of the applicant, as to the cost incurred or to be incurred for or by

reason of any such extension, the Commission may extend the railway upon such terms and conditions as may appear equitable to the Commission.

No such application for an extension of the railway into any municipality the corporation of which is not a party to this agreement shall be granted if it is estimated by the Commission that the cost of service of the railway to the corporations parties hereto will be thereby increased or the revenue and accommodation be injuriously affected without the written consent* of the majority of the corporations parties hereto.

9. The consent of any corporation required under this agreement shall mean the consent of the council of such corporations, such consent being in the form of a municipal by-law duly passed by the council of the corporation.

10. The Commission shall, at least annually, adjust and apportion between the corporations the cost of construction, equipment, operation, interest, sinking fund, and also the cost of renewing the property of the railway.

11. Every railway and all the works, property and effects held and used in connection therewith, constructed, acquired, operated and maintained by the Commission under this agreement and the said Act shall be vested in the Commission on behalf of the corporations; but the Commission shall be entitled to a lien upon the same for all money expended by the Commission under this agreement and not repaid.

12. Each of the corporations covenants and agrees with the other:—

(a) To carry out the agreements and provisions herein contained;

(b) To co-operate by all means in its power at all times with the Commission to create the most favorable conditions for the carrying out of the objects of this agreement and of the said Act, and to increase the revenue of the railway and ensure its success.

13. In the event of any difference between the corporations the Commission may, upon application, fix a time and place to hear all representations that may be made by the parties, and the Commission shall adjust such differences, and such adjustments shall be final. The Commission shall have all the powers that may be conferred upon a commissioner appointed under the *Act Respecting Enquiries Concerning Public Matters*.

14. This agreement shall continue and extend for a period of fifty years from the _____ day of _____, 1914, and at the expiration thereof be subject to renewal, with the consent of the corporations from time to time for like periods of fifty years, subject to adjustment and re-apportionment as herein provided for the purposes of this agreement as though the terms hereof had not expired. At the expiration of this agreement the Commission shall determine and adjust the rights of the corporations, having regard to the amounts paid or assumed by them respectively under the terms of this agreement, and such other considerations as may appear equitable in the Commission and are approved by the Lieutenant-Governor in Council.

15. This agreement shall not come into effect until it has been sanctioned by the Lieutenant-Governor in Council.

SCHEDULE B.

This Indenture made this twenty-sixth day of July, A.D. 1912, between the Hydro-Electric Power Commission of Ontario, acting herein on its own behalf and with the approval of the Lieutenant-Governor-in-Council (hereinafter called the Commission), party of the First Part, and the Municipal Corporation of Prescott (hereinafter called the Corporation), parties of the Second Part.

Whereas pursuant to "An Act to provide for transmission of electrical power to Municipalities," and the amendments thereto, the Corporation applied to the Commission to transmit and supply such power, and the Commission has entered into contracts with a Company or Companies for the supply of such power at the prices set forth in the schedule, hereto attached, and the Commission has furnished the Corporation with estimates, as shown in the schedule of the total cost of such power, and the electors of the Corporation assented to By-laws authorizing the Corporation to enter into a contract with the Commission for such power, and the Commission have estimated the line loss and the cost to construct, operate, maintain, repair, renew and insure a line to transmit such power to the Corporation, and have apportioned the part of such cost to be paid by each Corporation as shown in said schedule.

Now therefore this Indenture witnesseth that in consideration of the premises and of the agreements and of the Corporation herein set forth, subject to the provisions of said Act and the amendments thereto, and of the said contracts subject to any variations thereof by the Corporation, the Commission agrees with the Corporation respectively:—

1. (a) To construct a line to transmit the quantities of electric power, shown in column 2 of the said schedule to the Corporation shown in column 1 respectively.

(b) On the 1st day of December, 1912, or on any earlier day on which the Commission shall be prepared to supply said power in quantities set forth in column 2 of said schedule to the Corporation within the limits thereof, ready for distribution at approximately the number of volts set forth in column 4 of said schedule, and approximately 60 cycles per second frequency.

(c) At the expiration of three months' written notice, which may be given by the Corporation or any of them from time to time during the continuance of this agreement, to supply from time to time to the Corporation in blocks of not less than 100 horse power each, additional power until the total amount so supplied shall amount to 15,000 horse power or such further amount as the Commission may be able and willing to supply.

(d) To use at all times first-class, modern, standard, commercial apparatus and plant and to exercise all due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Corporation.

In consideration of the premises and of the agreements herein set forth each of the Corporations for itself, and not one for the other, agrees with the Commission:—

2. (a) Subject to the provisions of paragraph 2 (g) hereof, to pay to the Commission for the quantities of power shown in column 2 of said schedule to be supplied as aforesaid from the date when the Commission notifies the Corporation that it is ready to supply such power, and for all additional power held in reserve upon any of the above mentioned notices from the respective dates thereof until the termination of this agreement, the price set forth in column 3 of said schedule in twelve monthly payments, in gold coin

of the present standard of weight and fineness, and bills shall be rendered by the Commission on or before the fourth and paid by the Corporation on or before the fifteenth of each month. If any bill remains unpaid for 15 days, the Commission may, in addition to all other remedies and without notice, discontinue the supply of such power to the Corporation in default until said bill is paid. No such discontinuance shall relieve the Corporation in default from the performance of the covenants, provisos and conditions herein contained. All payments in arrears shall bear interest at the legal rate.

(b) To take electric power exclusively from the Commission during the continuance of this agreement; provided, if the Commission is unable to supply said power as quickly as required, the Corporation may obtain the supply otherwise until the Commission has provided such supply, thereupon the Corporation shall immediately take from the Commission; and the Corporation may generate, store or accumulate electric power for emergencies, or to keep down the peak load of the power taken from the Commission; and nothing herein contained shall affect existing contracts between the Corporation and other parties for a supply of electric power, but the Corporation shall determine said contracts at the earliest date possible.

(c) To pay, annually, interest at four per cent. per annum upon its proportionate part of the moneys expended by the Commission on capital account for the construction of the said line, transformer stations and other necessary works, shown, respectively, in column 6 of said schedule, subject to adjustment under paragraph 9.

(d) To pay an annual sum for its proportionate part of the cost of the construction of said line, stations and works, shown, respectively, in column 6 of said schedule, subject to adjustment under paragraph 9, so as to form in thirty years a sinking fund for the retirement of the securities to be issued by the Province of Ontario.

(e) To bear its proportionate part of the line loss and pay its proportionate part of the cost to operate, maintain, repair, renew and insure the said line, stations and works, shown, respectively, in column 7 of said schedule, subject to adjustment under paragraph 9.

(f) To keep, observe and perform the covenants, provisos and conditions set forth in said contracts, intended by the Commission and the Company to be kept and observed and performed.

(g) To pay as a minimum for three-fourths of the power to be supplied at said date and of the power held in reserve upon any of the said notices, whether the said power is taken or not; and when the greatest amount of power taken for twenty consecutive minutes in any month shall exceed during such twenty minutes three-fourths of the amount to be supplied and held in reserve for pay for this greater amount during that entire month; the amount payable for a month being one-twelfth part of the annual rate applicable to the horse power in question. When the power factor of the greatest amount of power taken for said twenty minutes falls below 90 per cent., the Corporation shall pay for 90 per cent. of said power divided by the power factor.

(h) To take no more power than the amount to be supplied and held in reserve at said date and upon said notices, as per paragraph 1 (c).

(i) To use at all times first-class, modern, standard, commercial apparatus and plant to be approved by the Commission.

(j) To exercise all due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Commission and the Company.

3. If, as therein provided, the said contracts are continued until nineteen hundred and forty-two (1942) this agreement shall remain in force until that date.

4. (a) Said power shall be three-phase, alternating, commercially continuous twenty-four hour power every day of the year, except as provided in paragraph 6 hereof, and shall be measured by curve-drawing meters, subject to test as to accuracy by either party hereto.

(b) The maintenance by the Commission of approximately the agreed voltage at approximately the agreed frequency at the point of delivery to the Corporation shall constitute the supply and the holding in reserve of all power involved herein, and the fulfillment of all operating obligations hereunder; the amount of the power, its fluctuations, load factor, power factor, distribution as to phases, and all other electric characteristics and qualities being under the sole control of the Corporation, their agents, customers, apparatus, appliances and circuits.

5. The Engineers of the Commission, or one or more of them, or any other person or persons appointed for this purpose by the Commission, shall have the right from time to time during the continuance of this agreement to inspect the apparatus, plant and property of the Corporation, and take records at all reasonable times on giving to the Corporation six hours' notice of the intention to make such inspection. The Corporation shall have a like right on giving a like notice to inspect the apparatus, plant and property of the Commission.

6. In case the Commission or the Company shall at any time or times be prevented from supplying said power, or any part thereof, or in case the Corporation shall at any time be prevented from taking said power, or any part thereof, by strike, lockout, riot, fire, invasion, explosion, act of God or the King's enemies, or any other not be bound to deliver such power during such time, and the Cause reasonably beyond their control, then the Commission shall not be bound to pay the price of said power at the point of delivery by the Company during such time, but the Corporation shall continue to make all other payment, but as soon as the cause of such interruption is removed the Commission shall without any delay supply such power as aforesaid and the Corporation shall take the same, and each of the parties hereto shall be prompt and diligent in removing and overcoming such cause or causes of interruption.

7. If, and so often as, any interruption shall occur in the service of the Company due to any cause or causes other than those provided for by the next preceding paragraph hereof, the Commission shall pay to the Corporation as liquidated and ascertained damages, and not by way of penalty, their respective proportionate shares of whatever sum is payable to the Commission by reason of such interruption; and when the amount thereof has been settled, such sum may be deducted from any moneys payable by the Corporation to the Commission, but such right of deduction shall not in any case delay the said monthly payments, nor shall the Commission be subject to any other liability for any non-delivery.

8. In case any municipal corporation, or any person, firm or corporation which shall contract with the Commission or with any municipal corporation for a supply of power furnished to the Commission by the Company shall suffer damages by the act or neglect of the Company, and such municipal corporation, person, firm or corporation would, if the Company had made the said contracts directly with them, have had a right to recover such damages or commence any proceedings or any other remedy, the Commission shall be entitled to commence any such proceedings or bring such action for or on behalf of such municipal corporation, person, firm or corporation, and notwithstanding any Statute, decision or rule of

law to the contrary, the Commission shall be entitled to all the rights and remedies of such municipal corporation, person, firm or corporation, including the right to recover such damages, but no action shall be brought by the Commission until such municipal corporation, person, firm or corporation shall have agreed with the Commission to pay any costs that may be adjudged to be paid if such proceedings or action is unsuccessful. The rights and remedies of any such municipal corporation, person, firm or corporation shall not be hereby prejudiced.

9. The Commission shall at least annually adjust and apportion the amounts payable by municipal corporations for such power and such interest, sinking fund, line loss, and cost of operating, maintaining, repairing, renewing, and insuring the line and works.

10. (a) If at any time, any other municipal corporation, or pursuant to said Act, any railway or distributing company or any other corporation or person, applies to the Commission for a supply of power, the Commission shall notify the applicant and the Corporation, parties hereto, in writing, of a time and place, and hear all representations that may be made as to the terms and conditions for such supply.

(b) Without discrimination in favor of the applicants as to the price to be paid, for equal quantities of power, the Commission may supply power upon such terms and conditions as may, having regard to the risk and expense incurred, and paid, and to be paid by the Corporation, parties hereto, appear equitable to the Commission, and approved by the Lieutenant-Governor-in-Council.

(c) No such application shall be granted if the said line is not adequate for such supply, or if the supply of the Corporations, parties hereto, will be thereby injuriously affected, and no power shall be supplied within the limits of a municipal corporation taking power from the Commission at the time of such application, without the written consent of such corporation.

(d) In determining the quantity of power supplied to a municipal corporation, the quantity supplied by the Commission within the limits of the Corporation to any applicant, other than a municipal corporation, shall be computed as part of the quantity supplied to such corporation, but such corporation shall not be liable to pay for the power so supplied, or otherwise in respect thereof. No power shall be supplied, by any municipal corporation, to any railway or distributing company, without the written consent of the Commission.

11. It is hereby declared that the Commission is to be a trustee of all property held by the Commission under this agreement for the Corporation and other municipal corporations supplied by the Commission, but the Commission shall be entitled to a lien upon said property for all moneys expended by the Commission under this agreement and not repaid. At the expiration of this agreement, the Commission shall determine and adjust the rights of the Corporation and other municipal corporations, supplied by the Commission, having regard to the amounts paid by them, respectively, under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor-in-Council.

12. Each of the Corporations agrees with the other:

(a) To take electric power exclusively from the Commission during the continuance of this agreement, subject to the provisos above set forth in paragraph 2 (b).

(b) To co-operate, by all means in its power, at all times, with the Commission, to increase the quantity of power required from

the Commission, and in all other respects to carry out the objects of this agreement and of the said Act.

13. If differences arise between the Corporations the Commission may upon application fix a time and place and hear all representations that may be made by the parties, and the Commission shall, in a summary manner, when possible, adjust such difference, and such adjustments shall be final. The Commission shall have all the powers that may be conferred upon a Commission appointed under *The Act respecting Enquiries concerning Public Matters*.

14. This agreement shall extend to, be binding upon and enure to the benefit of the successors and assigns of the parties hereto.

SCHEDULE C.

This Indenture made this Twenty-sixth day of July, A.D. 1912, between the Hydro-Electric Power Commission of Ontario, acting herein in its own behalf and with the approval of the Lieutenant-Governor-in-Council (hereinafter called the Commission) party of the First Part, and the Municipal Corporation of Brockville (hereinafter called the Corporation), party of the Second part.

Whereas, pursuant to "An Act to provide for transmission of electrical power to Municipalities," and the amendments thereto, the Corporation applied to the Commission to transmit and supply such power, and the Commission has entered into contracts with a Company or Companies for the Supply of such power at the prices set forth in the schedule, hereto attached, and the Commission has furnished the Corporation with estimates, as shown in the schedule, of the total cost of such power, and the electors of the Corporation assented to By-laws authorizing the Corporation to enter into a contract with the Commission for such power, and the Commission have estimated the line loss and the cost to construct, operate, maintain, repair, renew and insure a line to transmit such power to the Corporations, and have apportioned the part of such cost to be paid by each Corporation as shown in said schedule.

Now therefore this Indenture witnesseth that in consideration of the premises and of the agreements and of the corporations herein set forth, subject to the provisions of said Act and the amendments thereto, and of the said contracts subject to any variations thereof by the Corporations, the Commission agrees with the Corporations respectively:—

1. (a) To construct a line to transmit the quantities of electric power, shown in column 2 of the said schedule to the Corporations shown in column 1 respectively.

(b) On the first day of December, 1912, or on any earlier day on which the Commission shall be prepared to supply said power in quantities set forth in column 2 of said schedule to the Corporations within the limits thereof, ready for distribution at approximately the number of volts set forth in column 4 of said schedule, and approximately 60 cycles per second frequency.

(c) At the expiration of three months' written notice, which may be given by the Corporations or any of them from time to time during the continuance of this agreement, to supply from time to time to the Corporations in blocks of not less than 100 horse-power each, additional power until the total amount so supplied shall amount to 15,000 horse-power, or such further amount as the Commission may be able and willing to supply.

(d) To use at all times first-class, modern, standard, commercial apparatus and plant and to exercise all due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Corporations.

In consideration of the premises and of the agreements herein set forth each of the Corporations for itself, and not one for the other, agrees with the Commission:—

2. (a) Subject to the provisions of paragraph 2 (g) hereof, to pay to the Commission for the quantities of power shown in column 2 of said schedule to be supplied as aforesaid from the date when the Commission notifies the Corporations that it is ready to supply such power, and for all additional power held in reserve upon any of the above mentioned notices from the respective dates thereof until the termination of this Agreement, the price set forth in column 3

of said schedule in twelve monthly payments, in gold coin of the present standard of weight and fineness, and bills shall be rendered by the Commission on or before the fourth and paid by the Corporation on or before the fifteenth of each month. If any bill remains unpaid for 15 days, the Commission may, in addition to all other remedies and without notice, discontinue the supply of such power to the Corporations in default until said bill is paid. No such discontinuance shall relieve the Corporation in default from the performance of the covenants, provisos, and conditions herein contained. All payments in arrears shall bear interest at the legal rate.

(b) To take electric power exclusively from the Commission during the continuance of this agreement; provided, if the Commission is unable to supply said power as quickly as required, the Corporations may obtain the supply otherwise until the Commission has provided such supply, thereupon the Corporations shall immediately take from the Commission; and the Corporations may generate, store or accumulate electric power for emergencies, or to keep down the peak load of the power taken from the Commission; and nothing herein contained shall affect existing contracts between the Corporations and other parties for a supply of electric power, but the Corporations shall determine said contracts at the earliest date possible.

(c) To pay, annually, interest at four per cent. per annum upon its proportionate part of the moneys expended by the Commission on capital account for the construction of the said line, transformer stations and other necessary works, shown, respectively, in column 6 of said schedule, subject to adjustment under paragraph 9.

(d) To pay an annual sum for its proportionate part of the cost of the construction of said line, stations and works, shown, respectively in column 6 of said schedule, subject to adjustment under paragraph 9, so as to form in thirty years a sinking fund for the retirement of the securities to be issued by the Province of Ontario.

(e) To bear its proportionate part of the line loss and pay its proportionate part of the cost to operate, maintain, repair, renew and insure the said line, stations and works, shown, respectively, in column 7 of said schedule, subject to adjustment under paragraph 9.

(f) To keep, observe and perform the covenants, provisos and conditions set forth in said contracts, intended by the Commission and the Company to be kept and observed and performed.

(g) To pay as a minimum for three-fourths of the power to be supplied at said date and of the power held in reserve upon any of the said notices, whether the said power is taken or not; and when the greatest amount of power taken for twenty consecutive minutes in any month shall exceed during such twenty minutes three-fourths of the amount to be supplied and held in reserve for pay for this greater amount during that entire month; the amount payable for a month being one-twelfth part of the annual rate applicable to the horse power in question. When the power factor of the greatest amount of power taken for said twenty minutes falls below 90 per cent, the Corporation shall pay for 90 per cent. of said power divided by the power factor.

(h) To take no more power than the amount to be supplied and held in reserve at said date and upon said notices, as per paragraph 1 (c).

(i) To use at all times first-class, modern, standard, commercial apparatus and plant to be approved by the Commission.

(j) To exercise all due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Commission and the Company.

3. If, as therein provided, the said contracts are continued until nineteen hundred and forty-two (1942), this agreement shall remain in force until that date.

4. (a) Said power shall be three-phase, alternating, commercially continuous twenty-four hour power every day of the year, except as provided in paragraph 6 hereof, and shall be measured by curve-drawing meters, subject to test as to accuracy by either party thereto.

(b) The maintenance by the Commission of approximately the agreed voltage at approximately the agreed frequency at the point of delivery to the Corporation shall constitute the supply and the holding in reserve of all power involved herein, and the fulfilment of all operating obligations hereunder; the amount of the power, its fluctuations, load factor, power factor, distribution as to phases, and all other electric characteristics and qualities being under the sole control of the Corporation, their agents, customers, apparatus, appliances and circuits.

5. The Engineers of the Commission, or one or more of them, or any other person or persons appointed for this purpose by the Commission, shall have the right from time to time during the continuance of this agreement to inspect the apparatus, plant and property of the Corporation, and take records at all reasonable times on giving to the Corporation six hours' notice of the intention to make such inspection. The Corporation shall have a like right on giving a like notice to inspect the apparatus, plant and property of the Commission.

6. In case the Commission or the Company shall at any time or times be prevented from supplying said power, or any part thereof, or in case the Corporation shall at any time be prevented from taking said power, or any part thereof, by strike, lockout, riot, fire, invasion, explosion, act of God or the King's enemies, or any other cause reasonably beyond their control, then the Commission shall not be bound to deliver such power during such time and the Corporation shall not be bound to pay the price of said power at the point of delivery by the Company during such time, but the Corporation shall continue to make all other payments, but as soon as the cause of such interruption is removed the Commission shall, without delay, supply said power as aforesaid, and the Corporation shall take the same and each of the parties hereto shall be prompt and diligent in removing and overcoming such cause or causes of interruption.

7. If, and so often as, any interruption shall occur in the service of the Company due to any cause or causes other than those provided for by the next preceding paragraph hereof, the Commission shall pay to the Corporation as liquidated and ascertained damages, and not by way of penalty, their respective proportionate shares of whatever sum is payable to the Commission by reason of such interruption; and when the amount thereof has been settled such sum may be deducted from any moneys payable by the Corporations to the Commission, but such right of deduction shall not in any case delay the said monthly payments, nor shall the Commission be subject to any other liability for any non-delivery.

8. In case any municipal corporation, or any person, firm or corporation which shall contract with the Commission or with any municipal corporation for a supply of power furnished to the Commission by the Company shall suffer damages by the act or neglect of the Company, and such municipal corporation, person, firm or

corporation would, if the Company had made the said contracts directly with them, have had a right to recover such damages or commence any proceedings or any other remedy, the Commission shall be entitled to commence any such proceedings or bring such action for or on behalf of such municipal corporation, person, firm or corporation, and notwithstanding any Statute, decision or rule of law to the contrary, the Commission shall be entitled to all the rights and remedies of such municipal corporation, person, firm or corporation, including the right to recover such damages, but no action shall be brought by the Commission until such municipal corporation, person, firm or corporation shall have agreed with the Commission to pay any costs that may be adjudged to be paid if such proceedings or action is unsuccessful. The rights and remedies of any such municipal corporation, person, firm or corporation shall not be hereby prejudiced.

9. The Commission shall at least annually adjust and apportion the amounts payable by municipal corporations for such power and such interest, sinking fund, line loss, and cost of operating, maintaining, repairing, renewing, and insuring the line and works.

10. (a) If at any time, any other municipal corporation, or pursuant to said Act, any railway or distributing company or any other corporation or person, applies to the Commission for a supply of power, the Commission shall notify the applicant and the Corporation, parties hereto, in writing, of a time and place and hear all representations that may be made as to the terms and conditions for such supply.

(b) Without discrimination in favor of the applicants as to the price to be paid, for equal quantities of power the Commission may supply power upon such terms and conditions, as may, having regard to the risk and expense incurred, and paid, and to be paid by the Corporation, parties hereto, appear equitable to the Commission, and approved by the Lieutenant-Governor-in-Council.

(c) No such application shall be granted if the said line is not adequate for such supply, or if the supply of the Corporation, party hereto, will be thereby injuriously affected, and no power shall be supplied within the limits of a municipal corporation taking power from the Commission at the time of such application, without the written consent of such corporation.

(d) In determining the quantity of power supplied to a municipal corporation, the quantity supplied by the Commission within the limits of the Corporation to any applicant, other than a municipal corporation, shall be computed as part of the quantity supplied to such corporation, but such corporation shall not be liable to pay for the power so supplied, or otherwise in respect thereof. No power shall be supplied, by any municipal corporation, to any railway or distributing company, without the written consent of the Commission.

11. It is hereby declared that the Commission is to be a trustee of all property held by the Commission under this agreement for the Corporation and other municipal corporations supplied by the Commission, but the Commission shall be entitled to a lien upon said property for all moneys expended by the Commission under this agreement and not repaid. At the expiration of this agreement, the Commission shall determine and adjust the rights of the Corporations and other municipal corporations, supplied by the Commission, having regard to the amounts paid by them, respectively, under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor-in-Council.

12. Each of the Corporations agree with the other:—

(a) To take electric power exclusively from the Commission during the continuance of this agreement, subject to the provisions above set forth in paragraph 2 (b).

(b) To co-operate, by all means in its power, at all times, with the Commission, to increase the quantity of power required from the Commission, and in all other respects to carry out the objects of this agreement and of the said Act.

13. If differences arise between the Corporations the Commission may, upon application, fix a time and place and hear all representations that may be made by the parties, and the Commission shall, in a summary manner, when possible, adjust such difference and such adjustments shall be final. The Commission shall have all the powers that may be conferred upon a Commission appointed under *The Act respecting Enquiries concerning Public Matters*.

14. This agreement shall extend to, be binding upon and enure to the benefit of the successors and assigns of the parties hereto.

In witness whereof the COMMISSION and the CORPORATIONS have respectively affixed their corporate Seals and the hands of their proper officers.

SCHEDULE D.

This Indenture made this 13th day of November, A.D. 1912, between the Hydro-Electric Power Commission of Ontario, acting herein on its own behalf and with the approval of the Lieutenant-Governor in Council (hereinafter called the Commission), party of the First Part, and the Municipal Corporation of the Village of Winchester (hereinafter called the Corporation), parties of the Second Part.

Whereas pursuant to "An Act to provide for transmission of electrical power to Municipalities," and the amendments thereto, the Corporations applied to the Commission to transmit and supply such power, and the Commission has entered into contracts with a Company or Companies for the supply of such power at the prices set forth in the schedule, hereto attached, and the Commission has furnished the Corporations with estimates, as shown in the schedule of the total cost of such power, and the electors of the Corporations assented to by-laws authorizing the Corporations to enter into a contract with the Commission for such power, and the Commission have estimated the line loss and the cost to construct, operate, maintain, repair, renew and insure a line to transmit such power to the Corporations, and have apportioned the part of such cost to be paid by each Corporation as shown in said schedule.

Now, therefore, this Indenture witnesseth that in consideration of the premises and of the agreements and of the Corporations herein set forth, subject to the provisions of said Act and the amendments thereto, and of the said contracts subject to any variations thereof by the Corporations, the Commission agrees with the Corporations respectively:—

1. (a) To construct a line to transmit the quantities of electric power shown in column 2 of the said schedule to the Corporations shown in column 1 respectively.

(b) On the 1st day of December, 1912, or on any earlier day on which the Commission shall be prepared to supply said power in quantities set forth in column 2 of said schedule to the Corporations within the limits thereof, ready for distribution at approximately the number of volts set forth in column 4 of said schedule, and approximately 60 cycles per second frequency.

(d) To use at all times first-class, modern, standard, commercial apparatus and plant and to exercise all due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Corporations.

In consideration of the premises and of the agreements herein set forth each of the Corporations for itself, and not one for the other, agrees with the Commission:—

2. (a) Subject to the provisions of paragraph 2 (g) hereof, to pay to the Commission for the quantities of power shown in column 2 of said schedule to be supplied as aforesaid from the date when the Commission notifies the Corporations that it is ready to supply such power, and for all additional power held in reserve upon any of the above mentioned notices from the respective dates thereof until the termination of this agreement, the price set forth in

column 3 of said schedule in twelve monthly payments, in gold coin of the present standard of weight and fineness, and bills shall be rendered by the Commission on or before the fourth and paid by the Corporation on or before the fifteenth of each month. If any bill remains unpaid for fifteen days, the Commission may, in addition to all other remedies and without notice, discontinue the supply of such power to the Corporation in default until said bill is paid. No such discontinuance shall relieve the Corporation in default from the performance of the covenants, provisos, and conditions herein contained. All payments in arrears shall bear interest at the legal rate.

(b) To take electric power exclusively from the Commission during the continuance of this agreement; provided, if the Commission is unable to supply said power as quickly as required, the Corporations may obtain the supply otherwise until the Commission has provided such supply, thereupon the Corporations shall immediately take from the Commission; and the Corporations may generate, store or accumulate electric power for emergencies, or to keep down the peak load of the power taken from the Commission; and nothing herein contained shall affect existing contracts between the Corporations and other parties for a supply of electric power, but the Corporations shall determine said contracts at the earliest date possible.

(c) To pay, annually, interest at four per cent. per annum upon its proportionate part of the moneys expended by the Commission on capital account for the construction of the said line, transformer stations and other necessary works, shown, respectively, in column 6 of said schedule, subject to adjustment under paragraph 9.

(e) To bear its proportionate part of the line loss and pay its proportionate part of the cost to operate, maintain, repair, renew and insure the said line, stations and works, shown, respectively, in column 7 of said schedule, subject to adjustment under paragraph 9.

(f) To keep, observe and perform the covenants, provisos and conditions set forth in said contracts; intended by the Commission and the Company to be kept and observed and performed.

(g) To pay as a minimum for three-fourths of the power to be supplied at said date and of the power held in reserve upon any of the said notices, whether the said power is taken or not; and when the greatest amount of power taken for twenty consecutive minutes in any month shall exceed during such twenty minutes three-fourths of the amount to be supplied and held in reserve for pay for this greater amount during that entire month; the amount payable for a month being one-twelfth part of the annual rate applicable to the horse-power in question. The corporations shall have a like right on giving a like notice to inspect the apparatus, plant and property of the Commission.

6. In case the Commission or the Company shall at any time or times be prevented from supplying said power, or any part thereof, or in case the Corporations shall at any time be prevented from taking said power, or any part thereof, by strike, lockout, riot, fire, invasion, explosion, act of God or the King's enemies, or any other cause reasonably beyond their control, then the Commission shall not be bound to deliver such power during such time and the Corporations shall not be bound to pay the price of said power at the point of delivery by the Company during such time, but the Corporations shall continue to make all other payment, but as soon as the cause of such interruption is removed the Commission shall without any delay supply said power as aforesaid and the Corporations shall take the same, and each of the parties hereto shall be prompt and diligent in removing and overcoming such cause or causes of interruption.

7. If, and so often as, any interruption shall occur in the service of the Company due to any cause or causes other than those provided for by the next preceding paragraph hereof, the Commission shall pay to the Corporations as liquidated and ascertained damages, and not by way of penalty, their respective proportionate shares of whatever sum is payable to the Commission by reason of such interruption; and when the amount thereof has been settled, such sum may be deducted from any moneys payable by the Corporations to the Commission, but such right of deduction shall not in any case delay the said monthly payments, nor shall the Commission be subject to any other liability for any non-delivery.

8. In case any municipal corporation, or any person, firm or corporation which shall contract with the Commission or with any municipal corporation for a supply of power furnished to the Commission by the Company and shall suffer damages by the act or neglect of the Company, and such municipal corporation, person, firm or corpora-

tion would, if the Company had made the said contracts directly with them, have had a right to recover such damages or commence any proceedings or any other remedy, the Commission shall be entitled to commence any such proceedings or bring such action for or on behalf of such municipal corporation, person, firm or corporation, and notwithstanding any Statute, decision or rule of law to the contrary, the Commission shall be entitled to all the rights and remedies of such municipal corporation, person, firm or corporation, including the right to recover such damages, but no action shall be brought by the Commission until such municipal corporation, person, firm or corporation shall have agreed with the Commission to pay any costs that may be adjudged to be paid if such proceedings or action is unsuccessful. The rights and remedies of any such municipal corporation, person, firm or corporation shall not be hereby prejudiced.

9. The Commission shall at least annually adjust and apportion the amounts payable by municipal corporations for such power and such interest, sinking fund, line loss, and cost of operating, maintaining, repairing, renewing, and insuring the line and works.

10. (a) If at any time, any other municipal corporation, or pursuant to said Act, any railway or distributing company or any other corporation or person, applies to the Commission for a supply of power, the Commission shall notify the applicant and the Corporations, parties hereto, in writing, of a time and place and hear all representations that may be made as to the terms and conditions for such supply.

(b) Without discrimination in favor of the applicants as to the price to be paid, for equal quantities of power the Commission may supply power upon such terms and conditions, as may, having regard to the risk and expense incurred, and paid, and to be paid by the Corporations, parties hereto, appear equitable to the Commission, and approved by the Lieutenant-Governor in Council.

(c) No such application shall be granted if the said line is not adequate for such supply, or if the supply of the Corporations, parties hereto, will be thereby injuriously affected, and no power shall be supplied within the limits of a municipal corporation taking power from the Commission at the time of such application, without the written consent of such corporation.

(d) In determining the quantity of power supplied to a municipal corporation, the quantity supplied by the Commission within the limits of the Corporation to any applicant, other than a municipal corporation, shall be computed as part of the quantity supplied to such corporation, but such corporation shall not be liable to pay for the power so supplied, or otherwise in respect thereof. No power shall be supplied, by any municipal corporation, to any railway or distributing company, without the written consent of the Commission.

11. It is hereby declared that the Commission is to be a trustee of all property held by the Commission under this agreement for the Corporations and other municipal corporations supplied by the Commission, but the Commission shall be entitled to a lien upon said property for all moneys expended by the Commission under this agreement and not repaid. At the expiration of this agreement, the Commission shall determine and adjust the rights of the Corporations and other municipal corporations, supplied by the Commission, having regard to the amounts paid by them, respectively, under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

12. Each of the Corporations agree with the other:—

(a) To take electric power exclusively from the Commission during the continuance of this agreement, subject to the provisos above set forth in paragraph 2 (b).

13. If differences arise between the Corporations the Commission may upon application fix a time and place and hear all representations that may be made by the parties and the Commission shall, in a summary manner, when possible, adjust such difference and such adjustments shall be final. The Commission shall have all the powers that may be conferred upon a Commission appointed under the Act respecting Enquiries concerning Public Matters.

14. This agreement shall extend to, be binding upon and enure to the benefit of the successors and assigns of the parties hereto .

SCHEDULE E.

This Indenture made this second day of July, A.D. 1913, between the Hydro-Electric Power Commission of Ontario, acting herein on its own behalf and with the approval of the Lieutenant-Governor-in-Council (hereinafter called the Commission), party of the First Part, and the Municipal Corporation of the Village of Chesterville (hereinafter called the Corporation), party of the Second Part.

Whereas pursuant to "An Act to provide for transmission of electrical power to Municipalities," and the amendments thereto, the Corporation applied to the Commission to transmit and supply such power, and the Commission has entered into contracts with a Company or Companies for the supply of such power at the prices set forth in the schedule, hereto attached, and the Commission has furnished the Corporation with estimates, as shown in the schedule of the total cost of such power, and the electors of the Corporation assented to By-laws authorizing the Corporation to enter into a contract with the Commission for such power, and the Commission have estimated the line loss and the cost to construct, operate, maintain, repair, renew and insure a line to transmit such power to the Corporation, and have apportioned the part of such cost to be paid by each Corporation as shown in said schedule.

Now therefore this Indenture witnesseth that in consideration of the premises and of the agreements of the Corporation herein set forth, subject to the provisions of said Act and the amendments thereto, and of the said contracts subject to any variations thereof by the Corporation, the Commission agrees with the Corporation respectively:—

1. (a) To construct a line to transmit the quantities of electric power, shown in column 2 of the said schedule to the Corporation shown in column 1 respectively.

(b) On the first day of October, 1913, or on any earlier day on which the Commission shall be prepared to supply said power in quantities set forth in column 2 of said schedule to the Corporation within the limits thereof, ready for distribution at approximately the number of volts set forth in column 4 of said schedule, and approximately 60 cycles per second frequency.

(c) At the expiration of three months' written notice, which may be given by the Corporation from time to time during the continuance of this agreement, to supply from time to time to the Corporation in blocks of not less than 50 horse power each, additional power until the total amount so supplied shall amount to 15,000 horse power, or such further amount as the Commission may be able and willing to supply.

(d) To use at all times first-class, modern, standard, commercial apparatus and plant and to exercise all due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Corporation.

In consideration of the premises and of the agreements herein set forth each of the Corporation for itself, and not one for the other, agrees with the Commission:—

2. (a) Subject to the provisions of paragraph 2 (g) hereof, to pay to the Commission for the quantities of power shown in column 2 of said schedule to be supplied as aforesaid from the date when the Commission notifies the Corporation that it is ready to supply such power, and for all additional power held in reserve upon any of the above mentioned notices from the respective dates thereof until the termination of this Agreement, the price set forth in column 3 of said schedule in twelve monthly payments, in gold coin of the present standard of weight and fineness, and bills shall be rendered by the Commission on or before the fourth and paid by

the Corporation on or before the fifteenth of each month. If any bill remains unpaid for 15 days, the Commission may, in addition to all other remedies and without notice, discontinue the supply of such power to the Corporation in default until said bill is paid. No such discontinuance shall relieve the Corporation in default from the performance of the covenants, provisos, and conditions herein contained. All payments in arrears shall bear interest at the legal rate.

(b) To take electric power exclusively from the Commission during the continuance of this agreement: provided, if the Commission is unable to supply said power as quickly as required, the Corporation may obtain the supply otherwise until the Commission has provided such supply, thereupon the Corporation shall immediately take from the Commission and the Corporation may generate, store or accumulate electric power for emergencies, or to keep down the peak load of the power taken from the Commission; and nothing herein contained shall affect existing contracts between the Corporation and other parties for a supply of electric power, but the Corporation shall determine said contracts at the earliest possible date.

(c) To pay, annually, interest at four per cent. per annum upon its proportionate part of the moneys expended by the Commission on capital account for the construction of the said line, transformer stations and other necessary works, shown, respectively, in column 6 of said schedule, subject to adjustment under paragraph 9.

(d) To pay an annual sum for its proportionate part of the cost of the construction of said line, stations and works, shown, respectively, in column 6 of said schedule, subject to adjustment under paragraph 9, so as to form in thirty years a sinking fund for the retirement of the securities to be issued by the Province of Ontario.

(e) To bear its proportionate part of the line loss and pay its proportionate part of the cost to operate, maintain, repair, renew and insure the said line, stations and works, shown, respectively, in column 7 of said schedule, subject to adjustment under paragraph 9.

(f) To keep, observe and perform the covenants, provisos and conditions set forth in said contracts, intended by the Commission and the Company to be kept and observed and performed.

(g) To pay as a minimum for three-fourths of the power to be supplied at said date or of the power held in reserve upon any of the said notices, whether the said power is taken or not; and when the greatest amount of power taken for twenty consecutive minutes in any month shall exceed during such twenty minutes three-fourths of the amount to be supplied and held in reserve to pay for this greater amount during that entire month; the amount payable for a month being one-twelfth part of the annual rate applicable to the horse power in question. When the power factor of the greatest amount of power taken for said twenty minutes falls below 90%, the Corporation shall pay for 90% of said power divided by the power factor.

(h) To take no more power than the amount to be supplied and held in reserve at said date and upon said notices, as per paragraph 1 (c).

(i) To use at all times first-class, modern, standard, commercial apparatus and plant to be approved by the Commission.

(j) To exercise all due skill and diligence so as to secure the most perfect operation of the plant and apparatus of the Commission and the Company.

3. If, as herein provided, the said contracts are continued until nineteen hundred and forty-two (1942) this agreement shall remain in force until that date.

4. (a) Said power shall be three-phase, alternating, commercial continuous twenty-four hour power every day of the year, except as provided in paragraph 6 thereof, and shall be measured by curve-drawing metres, subject to test as to accuracy by either party hereto.

(b) The maintenance by the Commission of approximately the agreed voltage at approximately the agreed frequency at the point of delivery to the Corporation shall constitute the supply and the holding in reserve of all power involved herein, and the fulfilment of all operating obligations hereunder; the amount of the power, its fluctuations, load factor, power factor, distribution as to phases, and all other electric characteristics and qualities being under the sole control of the Corporation, its agents, customers, apparatus, appliances and circuits.

5. The engineers of the Commission, or one or more of them, or any other person or persons appointed for this purpose by the Commission, shall have the right from time to time during the continuance of this agreement to inspect the apparatus, plant and property of the Corporation, and take records at all reasonable times on giving to the Corporation six hours' notice of the intention to make such inspection. The Corporation shall have a like right on giving a like notice to inspect the apparatus, plant and property of the Commission.

6. In case the Commission or the Company shall at any time or times be prevented from supplying said power, or any part thereof, or in case the Corporation shall at any time be prevented from taking said power, or any part thereof, by strike, lockout, riot, fire, invasions, explosion, act of God, or the King's enemies, or any other cause reasonably beyond their control, then the Commission shall not be bound to deliver such power during such time and the Corporation shall not be bound to pay the price of said power at the point of delivery by the Company during such time, but the Corporation shall continue to make all other payments, but as soon as the cause of such interruption is removed the Commission shall, without any delay, supply said power as aforesaid, and the Corporation shall take the same and each of the parties hereto shall be prompt and diligent in removing and overcoming such cause or causes of interruption.

7. If, and so often as, any interruption shall occur in the service of the Company due to any cause or causes other than those provided for by the next preceding paragraph hereof, the Commission shall pay to the Corporation as liquidated and ascertained damages, and not by way of penalty, their respective proportionate shares of whatever sum is payable to the Commission by reason of such interruption; and when the amount thereof has been settled, such sum may be deducted from any moneys payable by the Corporation to the Commission, but such right of deduction shall not in any case delay the said monthly payments, nor shall the Commission be subject to any other liability for any one delivery.

8. In case any municipal corporation, or any person, firm or corporation which shall contract with the Commission or with any municipal corporation for a supply of power furnished to the Commission by the Company shall suffer damages by the act or neglect of the Company, and such municipal corporation, person, firm or corporation would, if the Company had made the said contracts directly with them, have had a right to recover such damages or commence any proceedings or any other remedy, the Commission shall be entitled to commence any such proceedings or bring such action

for or on behalf of such municipal corporation, person, firm or corporation, and notwithstanding any Statute, decision or rule of law to the contrary, the Commission shall be entitled to all the rights and remedies of such municipal corporation, person, firm or corporation, including the right to recover such damages, but no action shall be brought by the Commission until such municipal corporation, person, firm or corporation shall have agreed with the Commission to pay any costs that may be adjudged to be paid if such proceedings or action is unsuccessful. The rights and remedies of any such municipal corporation, person, firm or corporation shall not be hereby prejudiced.

9. The Commission shall at least annually adjust and apportion the amounts payable by municipal corporations for such power and such interest, sinking fund, line loss, and cost of operating, maintaining, repairing, renewing and insuring the line and works.

10. (a) If at any time any other municipal corporation, or pursuant to said Act, any railway or distributing company or any other corporation or person, applies to the Commission for a supply of power the Commission shall notify the applicant and the Corporation, party hereto, in writing, of a time and place and hear all representations that may be made as to the terms and conditions for such supply.

(b) Without discrimination in favor of the applicants as to the price to be paid, for equal quantities of power, the Commission may supply power upon such terms and conditions as may, having regard to the risk and expense incurred and paid, and to be paid by the Corporation, party hereto, appear equitable to the Commission, and are approved by the Lieutenant-Governor-in-Council.

(c) No such application shall be granted if the said line is not adequate for such supply, or if the supply of the Corporation, party hereto, will be thereby injuriously affected, and no power shall be supplied within the limits of a municipal corporation taking power from the Commission at the time of such application, without the written consent of such Corporation.

(d) In determining the quantity of power supplied to a municipal corporation, the quantity supplied by the Commission within the limits of the Corporation to any applicant, other than a municipal corporation, shall be computed as part of the quantity supplied to such corporation, but such corporation shall not be liable to pay for the power so supplied, by any municipal corporation, to any railway or distributing company, without the written consent of the Commission.

11. It is hereby declared that the Commission is to be a trustee of all property held by the Commission under this agreement for the corporation and other municipal corporations supplied by the Commission, but the Commission shall be entitled to a lien upon said property for all moneys expended by the Commission under this agreement and not repaid. At the expiration of this agreement the Commission shall determine and adjust the rights of the Corporation and other municipal corporations, supplied by the Commission, having regard to the amounts paid by them, respectively, under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor-in-Council.

12. Each of the Corporations agree with the other:—

(a) To take electric power exclusively from the Commission during the continuance of this agreement, subject to the provisos above set forth in paragraph 2 (b).

(b) To co-operate, by all means in its power, at all times, with the Commission to increase the quantity of power required from the Commission, and in all other respects to carry out the objects of this agreement and of the said Act.

13. If differences arise between the Corporations the Commission may, upon application, fix a time and place and hear all representations that may be made by the parties and the Commission shall, in a summary manner, when possible, adjust such differences and such adjustments shall be final. The Commission shall have all the powers that may be conferred upon a Commission appointed under *The Act respecting Enquiries concerning Public Matters*.

14. This agreement shall extend to, be binding upon and enure to the benefit of the successors and assigns of the parties hereto.

In witness whereof the Commission and the Corporation have respectively affixed their corporate Seals and the hands of their proper officers.

SCHEDULE F.

This Indenture made in duplicate the 27th day of October, in the year of our Lord one thousand, nine hundred and thirteen,

Between

The Hydro-Electric Power Commission of Ontario, hereinafter called the "Commission," party of the first part;

and

The Municipal Corporation of the Town of Owen Sound, hereinafter called the "Corporation," party of the second part.

Whereas, pursuant to "An Act to provide for the Transmission of Electrical Power to Municipalities, known as *The Power Commission Act* and Amendments thereto," the Corporation applied to the Commission for a supply of power, and the Commission furnished the Corporation with estimates of the total cost of such power, ready for distribution within the limits of the Corporation (and the electors of the Corporation assented to the by-laws authorizing the Corporation to enter into a contract with the Commission for such power).

1. Now therefore this indenture witnesseth that in consideration of the premises of the agreement of the Corporation herein set forth, subject to the provisions of the said Act and amendments thereto, the Commission agree with the Corporation:—

(a) To reserve and deliver at the earliest possible date 1,200 h.p. or more of electrical power to the Corporation.

(b) At the expiration of reasonable notice in writing which may be given by the Corporation from time to time during the continuance of this agreement, to reserve and deliver to the Corporation additional electric power when called for.

(c) To use at all times first-class, modern, standard commercial apparatus and plant and to exercise all due skill and diligence so as to secure satisfactory operation of the plant and apparatus of the Corporation.

(d) To deliver commercially continuous 24-hour power every day in the year to the Corporation at the distribution bus bars in the Commission's sub-station within the Corporation's limits.

2. In consideration of the premises and of the agreement herein set forth, the Corporation agrees with the Commission:—

(a) To use all diligence and every lawful means in its power to prepare for the receipt and use of the power dealt with by this agreement so as to be able to receive power when the Commission is ready to deliver same.

(b) To pay annually interest at 4 per cent. to 4½ per cent. per annum upon the Corporation's proportionate part (based on the quantity of electrical energy or power taken) of all moneys expended by the Commission on capital account for the acquiring of properties and rights and acquiring and construction of generating plants, transformer stations, transmission lines, distributing stations, and other works necessary for the delivery of said electrical power or energy to the Corporation under the terms of this contract.

Also to pay an annual sinking fund instalment of such amount as to form at the end of 30 years, with accrued interest, a sinking

fund sufficient to repay the Corporation's proportionate part, based as aforesaid, of all moneys advanced by the Province of Ontario for the acquiring of properties and rights, the acquiring and construction of generating plants, transformer stations and transmission lines, distributing stations and other work necessary for the delivery of the electrical energy or power, delivered to the Corporation under the terms of this contract. Also to pay the Corporation's proportionate part, based as aforesaid, of the cost of lost power and the cost of operating, maintaining, repairing, renewing and insuring said generating plants, transformer stations, transmission lines, distributing stations, and other necessary works.

(c) The amounts payable under this contract shall be paid in twelve monthly payments, in gold coin of the present standard of weight and fineness, at the offices of the Commission at Toronto. Bills shall be rendered by the Commission on or before the 5th day and paid by the Corporation on or before the 15th day of each month. If any bill remains unpaid for fifteen days, the Commission may, in addition to all other remedies and without further notice, discontinue the supply of power to the Corporation until the said bill is paid. No such discontinuance shall relieve the Corporation from the performance of the covenants, provisoes, and conditions herein contained. All payments in arrears shall bear interest at the legal rate.

(d) To take electric power exclusively from the Commission during the continuance of this agreement.

(e) To co-operate by all means in its power at all times with the Commission to increase the quantity of power required from the Commission, and in all other respects to carry out the objects of this agreement, and of the said Act.

(f) To pay for three-fourths of the power ordered from time to time by the Corporation and held in reserve for it as herein provided whether it takes the same or not. When the greatest amount of power taken for any twenty consecutive minutes during any month shall exceed during the twenty consecutive minutes three-fourths of the amount ordered by the Corporation and held in reserve, then the Corporation shall pay for this greater amount during the entire month.

(g) If the Corporation during any month takes more than the amount of power ordered and held in reserve for it for twenty consecutive minutes, the taking of such excess shall thereafter constitute an obligation on the part of the Corporation to pay for, and on the part of the Commission to hold in reserve, such increased quantity of power in accordance with the terms and conditions of this contract.

(h) When the power factor of the greatest amount of power taken for said twenty consecutive minutes falls below 90 per cent. the Corporation shall pay for 90 per cent. of said power divided by the power factor.

(i) To use at all times first-class, modern, standard, commercial apparatus and plant, approved by the Commission.

(j) To exercise all due skill and diligence so as to secure satisfactory operation of the plant and apparatus of the Commission and of the Corporation.

3. This agreement shall remain in force for thirty years from date of the first delivery of power under this contract.

4. The power shall be alternating, three phase, having a periodicity of approximately 60 cycles per second and shall be delivered as aforesaid at a voltage suitable for local distribution.

(a) That the meters with their series and potential transformers shall be connected at the point of delivery.

(b) That the maintenance by the Commission of approximately the agreed voltage at approximately the agreed frequency at the substation in the limits of the Corporation shall constitute the supply of all power involved herein and the fulfilment of all operating obligations hereunder, and when voltage and frequency are so maintained, the amount of the power, its fluctuations, load factor, power factor, distribution as to phases and all other electric characteristics and qualities, are under the sole control of the Corporation, their agents, customers, apparatus, appliances and circuits.

5. The engineers of the Commission, or one or more of them, or any other person or persons appointed for this purpose by the Commission, shall have the right from time to time during the continuance of this agreement to inspect the apparatus, plant and property of the Corporation and take records at all reasonable hours.

6. The Commission shall at least annually adjust and apportion the amount or amounts payable by the municipal corporation or corporations for such power and such interest, sinking fund, cost of lost power and cost of generating, operating, maintaining, repairing, renewing and insuring said works.

If at any time any other municipal corporation, or pursuant to said Act, any railway or distributing company, or any other corporations or person, applies to the Commission for a supply of power, the Commission shall notify the applicant and involved corporation or corporations in writing of a time and place to hear all representations that may be made as to the terms and conditions for such supply.

Without discrimination in favor of the applicants as to the price to be paid, for equal quantities of power, the Commission may supply power upon such terms and conditions as may, having regard to the risk and expense incurred, and paid and to be paid by the Corporation, appear equitable to the Commission, and are approved by the Lieutenant-Governor in Council.

No such application shall be granted if the said works or any part thereof are not adequate for such supply, or if the supply of Corporation will be thereby injuriously affected and no power shall be supplied within the limits of a municipal corporation taking power from the Commission at the time of such application without the written consent of such corporation.

In determining the quantity of power supplied to a municipal corporation the quantity supplied by the Commission within the limits of the corporation to any applicant other than a municipal corporation, shall be computed as part of the quantity supplied to such corporation, but such corporation shall not be liable for payment for any portion of the power so supplied. No power shall be supplied by the municipal corporation to any railway or distributing company without the written consent of the Commission. Power shall not be sold for less than the cost and there shall be no discrimination as regards price and quantity.

7. It is hereby declared the Commission is to be a trustee of all property held by the Commission under this agreement for the corporation or corporations supplied by the Commission but the Commission shall be entitled to a lien upon said property for all moneys expended by the Commission under this agreement and not

repaid. At the expiration of this agreement the Commission shall determine and adjust the rights of the Corporation and any other (if any) supplied by the Commission having regard to the amounts paid by them respectively under the terms of this agreement and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

8. If differences arise between corporations to which the Commission is supplying power, the Commission may upon application fix a time and place and hear all representations that may be made by the parties and the Commission shall in a summary manner when possible, adjust such differences and such adjustment shall be final. The Commission shall have all the powers that may be conferred upon a Commissioner appointed under *The Act respecting Enquiries Concerning Public Matters*.

9. This agreement shall extend to, be binding upon and inure to the benefit of the successors and assigns of the parties hereto.

In witness whereof the Commission and the Corporation have respectively affixed their corporate seal and the hand of their proper officers.

SCHEDULE G.

This Indenture made in duplicate this Second day of February, in the year of Our Lord, One Thousand Nine Hundred and Fourteen.

Between:

The Hydro-Electric Power Commission of Ontario, hereinafter called the "Commission," Party of the First Part,

and

The Municipal Corporation of the City of Ottawa, hereinafter called the "Corporation," Party of the Second Part.

Whereas, pursuant to "An Act to provide for transmission of electrical power to Municipalities," the Corporation applied to the Commission for a supply of power, and the Commission have entered into a contract with the Ottawa and Hull Power and Manufacturing Company, Limited, and the electors of the Corporation assented to a By-law authorizing the Corporation to enter into a contract with the Commission for such power.

And whereas, in accordance with this Act, the Commission on July 31st, 1907, made a contract with the City of Ottawa for a supply of power from the Ottawa and Hull Power and Manufacturing Company, Limited, and a further agreement for additional power on September 6th, 1910.

And whereas it is the desire of both parties hereto that it be declared that the said agreements of July 31st, 1907, and September 6th, 1910, be terminated and superseded by this agreement as hereinafter set out.

And whereas the Commission has entered into a new agreement with the Ottawa and Hull Power and Manufacturing Company, Limited, hereinafter called the "Company," being dated the 8th day of December, A.D. 1913, for the delivery to the Commission of electric power and energy for the supply of the said Corporation.

And whereas the Corporation has applied to the Commission for a new agreement for a supply of power, in accordance with the agreement between the Commission and the Company, dated December 8th, 1913.

1. Now therefore this Indenture witnesseth, that in consideration of the premises and of the agreements of the Corporation herein set forth, subject to the provisions of said Act and of the said contract, the Commission agrees with the Corporation:—

(a) To reserve and deliver at the earliest possible date 5,000 h.p. or more of electric power to the Corporation.

(b) At the expiration of thirty days' notice in writing, which may be given by the Corporation from time to time during the continuance of this agreement, to reserve and deliver to the Corporation additional electric power when called for in blocks of 500 h.p. each until 20,000 h.p. is being delivered or reserved.

Should any such notices current at any one time, calling for 1,000 h.p. or more, require the installation of additional generating capacity, then the Commission shall not be liable for the non-delivery of such additional power under the notice until six (6) months after the respective dates of such notices. The additional power or such portion thereof as the generating capacity of the Company's plant will permit, will, however, continue to be delivered.

(c) To use at all times first-class, modern, standard, commercial apparatus and plant, and to exercise all due skill and diligence so as to secure satisfactory operation of the plant and apparatus of the Corporation.

(d) The power shall be delivered to the Corporation at approximately 11,000 volts and at approximately 60 cycles per second.

2. In consideration of the premises and of the agreements herein set forth, the Corporation agrees with the Commission:—

(a) To use all diligence by every lawful means in its power to prepare for the receipt and use of the power dealt with by this agreement so as to be able to receive power when the Commission is ready to deliver the same.

(b) Subject to the provisions of paragraph *a* (*f*) hereof to pay to the Commission the following prices:—

\$14 per h.p. per annum for all power taken until the amount taken or held in reserve by the Commission from the Company shall equal or exceed 8,000 h.p.

When the amount taken or held in reserve from the Company by the Commission shall have increased to 8,000 h.p., then for each and every horsepower taken by the Corporation, \$13.50 per h.p. per annum.

When the amount taken or held in reserve from the Company by the Commission shall have increased to 10,000 h.p., then for each

and every horsepower taken by the Corporation, \$13 per h.p. per annum.

When the amount taken or held in reserve from the Company by the Commission shall have increased to 12,000 h.p., then for each and every horsepower taken by the Corporation, \$12.50 per h.p. per annum.

When the amount taken or held in reserve from the Company by the Commission shall have increased to 14,000 h.p., then for each and every horsepower taken by the Corporation, \$12 per h.p. per annum.

When the amount taken or held in reserve from the Company by the Commission shall have increased to 16,000 h.p., then for each and every horsepower taken by the Corporation, \$11.50 per h.p. per annum.

When the amount taken or held in reserve from the Company by the Commission shall have increased to 18,000 h.p., then for each and every horsepower taken by the Corporation, \$11 per h.p. per annum.

(c) To pay in addition annually interest at 4 per cent. or $4\frac{1}{2}$ per cent. per annum upon the monies expended by the Commission on capital account for the construction of transmission lines, transformer stations and equipment, and other necessary works required for the delivery of power.

Also to pay an annual part of the cost of the construction of the said line, station and works, so as to form in thirty (30) years a sinking fund for the payment of the monies advanced by the Province of Ontario in connection with this work.

Also to pay the cost of operating, maintaining, repairing, renewing and insuring the said line, station and works.

(d) The amounts payable under this contract shall be paid in twelve monthly payments in gold coin of the present standard of weight and fineness, at the office of the Commission at Toronto, and bills shall be rendered by the Commission on or before the fifth day and paid by the Corporation on or before the fifteenth day of each month. If any bill remains unpaid for fifteen days, the Commission may, in addition to all other remedies and without notice, discontinue the supply of power to the Corporation until said bill is paid. No such discontinuance shall relieve the Corporation from the performance of the covenants, provisions and conditions herein contained. All payments in arrears shall bear interest at the legal rate.

(e) To take electric power exclusively from the Commission during the continuance of this agreement.

(f) To pay for three-fourths of the power ordered from time to time by the Corporation and held in reserve for it as herein provided, whether it takes the same or not. When the greatest amount of power taken for any twenty consecutive minutes during any month shall exceed during the twenty consecutive minutes three-fourths of the amount ordered by the Corporation and held in reserve, then the Corporation shall pay for this greater amount during the entire month.

If the Corporation during any month takes more than the amount of power ordered and held in reserve for it for twenty consecutive minutes, the taking of such excess shall thereafter constitute an obligation on the part of the Corporation to pay for and on the part

of the Commission to hold in reserve an additional block of power in accordance with the terms and conditions of this contract.

When the power factor of the greatest amount of power taken for said twenty consecutive minutes falls below 90 per cent., the Corporation shall pay ninety per cent. of said power divided by the power factor.

(g) To use at all times first-class, modern, standard commercial apparatus and plant approved by the Commission.

(h) To exercise all due skill and diligence so as to secure satisfactory operation of the plant and apparatus of the Commission and the Corporation.

(i) To co-operate by all means in its power, at all times, with the Commission to increase the quantity of power required from the Commission, and in all other respects to carry out the objects of this agreement and of the said Act.

3. This agreement shall remain in force for ten years from the date of the first delivery of power under this agreement; the Corporation may, at its option, continue this agreement for one or two further successive terms of ten years each.

(a) The Corporation may exercise the first of these options by giving notice in writing of its intention to continue this agreement for a further term of ten years at least two years before the expiration of the first term of ten years.

(b) The Corporation may exercise the second of these options by giving notice to the Commission in writing of its intention to continue this agreement for the third term of ten years, at least two years before the expiration of the second term of ten years.

4. The power shall be approximately 11,000 volts, 60 cycle, 3-phase, alternating, commercially continuous twenty-four hour power every day in the year except as provided therein, and shall be delivered at the disconnecting switches on the outgoing feeders installed in the Commission's sub-station or on the feeder cables of the Company, within the limits of the municipality.

The Commission shall not be responsible for any failure to deliver power due to the withdrawal or suspension or variation of the necessary permission from the Government of the Dominion of Canada, granted the Company to construct and maintain poles, conduits, wires, and other apparatus necessary to transmit and convey the said power, upon any property or structure under the control of the said Government.

(a) That the meters with their series or potential transformers may be connected to the high tension side or low tension side of the transformers, or some connected to one side and some connected to the other, as the Commission may elect. That whenever connected at other than the point of measurement their readings shall be subject to a correction and shall be corrected to give a reading such as would be obtained by instruments as if connected at the point of measurement. That such corrections shall be based upon tests made upon the step-down transformers and transmission lines by the Commission, or any other tests upon them acceptable to the Commission as to the efficiency, regulation or any other constants of the transformers and transmission lines necessary for said correction, but that such tests, when made by the Commission, are to be made in the presence of the representative or representatives of the Corporation if it so desires.

(b) The maintenance by the Commission of approximately the agreed voltage at approximately the agreed frequency at the substation in the limits of the Corporation shall constitute the supply of all power involved herein and the fulfilment of all operating obligations hereunder; and when voltage and frequency are so maintained, the amount of power, its fluctuations, load factor, power factor, distribution as to phases and all other electric characteristics and qualities are under the sole control of the Corporation, their agents, customers, apparatus, appliances and circuits.

(c) The Corporation shall arrange to provide and invest the Company with all the necessary rights, licenses and franchises to enable the Company to construct and maintain poles, conduits, wires and other apparatus necessary to transmit and convey the said power within the limits of the City of Ottawa, to the said point of delivery.

5. The engineers of the Commission, or one or more of them, or any other person or persons appointed for this purpose by the Commission, shall have the right from time to time during the continuance of this agreement to inspect the apparatus, plant and property of the Corporation and take records at all reasonable hours.

6. In case the Commission should at any time or times be prevented from supplying said power, or any part thereof, or in case the Corporation shall at any time be prevented from taking said power, or any part thereof, by strike, lock-out, fire, invasion, explosion, act of God, or the King's enemies, or any other cause reasonably beyond their control, then the Commission shall not be bound to deliver such power during such times, and the Corporation shall not be bound to pay the price of said power during such time, but as soon as the cause of such interruption is removed, the Commission shall without any delay supply said power as aforesaid, and the Corporation shall take the same and shall be prompt and diligent in removing and overcoming such cause or causes of interruption.

7. If, and so often as, any interruption shall occur in the service of the Power Company due to any cause or causes, other than those provided for by the next preceding paragraph, the Commission shall recover and pay to the Corporation as liquidated and ascertained damages, and not by way of penalty, as follows: For any interruption of less than one hour double the amount payable for power which should have been supplied during the time of such interruption; and for any interruption of one hour or more the amount payable for the power which should have been delivered during the time of such interruption and two times the last mentioned amount in addition thereto, and all moneys payable under this paragraph, when the amount thereof is settled between the Commission and the Company, may be deducted from any money payable by the Corporation to the Commission, but such right of deduction shall not in any case delay the said monthly payments.

8. If at any other time any other municipal corporation, or, pursuant to said Act, any railway or distributing company, or any other corporation or person, applies to the Commission for a supply of power, the Commission shall notify the applicant and the Corporation in writing of a time and place and hear all representations that may be made as to the terms and conditions for such supply.

Without discriminating in favor of the applicants as to the price to be paid, for equal quantity of power, the Commission may supply power upon such terms and conditions as may, having regard to the risk and expense incurred, and paid, and to be paid by the Corporation, and are approved by the Lieutenant-Governor in Council.

No such application shall be granted if the said line is not adequate for such supply, or if the supply of the Corporation will be thereby injuriously affected, and no power shall be supplied within the limits of a municipal corporation taking power from the Commission at the time of such application without the written consent of such Corporation.

In determining the quantity of power supplied to a municipal corporation, the quantity supplied by the Commission within the limits of the corporation to any applicant, other than a municipal corporation, shall be computed as part of the quantity supplied to such corporation, but such corporation shall not be liable to pay for the power so supplied, or otherwise in respect thereof. In order to prevent discrimination by the municipal corporation to any railway or distributing company without the written consent of the Commission, but the Corporation may sell power to any person or persons or manufacturing companies inside the limits of the Corporation, but such power shall not be sold for less than the cost and without discrimination as regards price and quantity.

9. In case any municipal corporation, or any person, firm or corporation which shall contract with the Commission or with any municipal corporation for a supply of power furnished to the Commission by the Power Company shall suffer damages by the act or neglect of the Power Company, and such municipal corporation, person, firm or corporation would, if the Power Company had made the said contracts directly with them, have had a right to recover such damages or commence any proceedings or any other remedy, the Commission shall be entitled to commence any such proceedings or bring such action for or on behalf of such municipal corporation, person, firm or corporation, and notwithstanding any Acts, decision or rule of law to the contrary, the Commission shall be entitled to all the rights and remedies of such municipal corporation, person, firm or corporation, including the right to recover such damages, but no action shall be brought by the Commission until such municipal corporation, person, firm or corporation shall have agreed with the Commission to pay any costs that may be adjudged to be paid if such proceedings or action is unsuccessful. The rights and remedies of any such municipal corporation, person, firm or corporation shall not be hereby prejudiced.

10. The Commission shall annually adjust and apportion the amounts payable by municipal corporations for such power and such interest, sinking fund, line loss, and cost of operating, maintaining, repairing, renewing and insuring the line and works.

11. If differences arise between corporations to whom the Commission is supplying power, the Commission upon application may fix a time and place to hear all representations that may be made by the parties, and the Commission shall, in a summary manner when possible, adjust such differences, and such adjustment shall be final. The Commission shall have all the powers that may be conferred upon a Commissioner appointed under *The Act respecting Enquiries Concerning Public Matters*.

12. If differences arise between the Corporation and the Commission, the Lieutenant-Governor in Council may, upon application, fix a time and place to hear all representations that may be made by the parties, and the Lieutenant-Governor in Council shall, in a summary manner, when possible, adjust such differences and such adjustment shall be final. The Lieutenant-Governor in Council shall have all the powers that may be conferred upon a Commissioner appointed under *The Act respecting Enquiries Concerning Public Matters*.

13. And it is hereby declared that the Commission is to be a trustee of all properties held by the Commission under this agreement for the corporations and other municipal corporations supplied by the Commission, but the Commission shall be entitled to a lien upon said property for all monies expended by the Commission under this agreement and not repaid. At the expiration of this agreement the Commission shall determine and adjust the rights of the corporations and other municipal corporations, supplied by the Commission, having regard to the amounts paid by them respectively, under the terms of this agreement, and such other considerations as may appear equitable to the Commission and are approved by the Lieutenant-Governor in Council.

14. And it is hereby understood and agreed that the said agreements of 31st July, 1907; and the further agreement of September 6th, 1910, between the parties hereto shall be terminated and superseded by this agreement on the date of the first delivery of power to the Commission by the Company, under the new agreement between the Commission and the Company, dated the 8th day of December, 1913.

In witness whereof the Commission and the Corporation have respectively affixed their corporate seals and the hands of their proper officers.
